

AOCC2021 Abstract Result					
Renumbered ID	Category	Title	First Author	Organization / Institution	Result
BA01	1-Clinical Research	Efficacy and safety of upadacitinib induction therapy in patients with moderately to severely active ulcerative colitis: results from U-ACHIEVE study	Min-Hu Chen	Division of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University	Best Abstract Award
BA02	1-Clinical Research	Guselkumab induction therapy effect on endoscopic outcome measures in moderately-to-severely active Crohn's disease patients: week-12 results from phase-2 GALAXI-1 study	Geert D'Haens	Amsterdam UMC, Amsterdam, The Netherlands	Best Abstract Award
BA03	1-Clinical Research	Risankizumab therapy induces improvements in endoscopic endpoints in patients with moderate-to-severe Crohn's disease: results from two phase 3 studies	Zhihua Ran	Shanghai Jiao Tong University	Best Abstract Award
BA04	1-Clinical Research	Effect of ustekinumab maintenance on corticosteroid-free endoscopic and clinical outcomes in patients with Crohn's disease (CD) through 48-weeks: STARDUST trial	Silvio Danese	IBD Center, Humanitas University	Best Abstract Award
BA05	3-Translational Research (Clinical and Basic)	COLLAGEN VI DERIVED FROM HUMAN INTESTINAL MYOFIBROBLASTS INCREASES T CELL ADHESION IN INFLAMMATORY BOWEL DISEASE;	Si-Nan Lin	Department of Gastroenterology and Hepatology, The First Affiliated Hospital of Sun Yat-sen University	Best Abstract Award
BA06	2-Basic Research	A novel therapeutic strategy in ulcerative colitis through enforcing IL-22 production by ILC3	Yusuke Yoshimatsu	Keio University School of Medicine	Best Abstract Award
BA07	1-Clinical Research	Olamkicept, a Novel IL-6 Trans-signaling Inhibitor, Induces Rapid Clinical Improvements in Moderate to Severe Ulcerative Colitis: Phase 2 Study Results	Shenghong Zhang	The First Affiliated Hospital, Sun Yat-sen University	Best Abstract Award
BA08	3-Translational Research (Clinical and Basic)	Development of a machine learning model to distinguish between ulcerative colitis and Crohn's disease using RNA sequencing data	Soo-Kyung Park	Department of Internal Medicine, Kangbuk Samsung Hospital, Sungkyunkwan University School of Medicine	Best Abstract Award
BA09	3-Translational Research (Clinical and Basic)	Single-cell atlas-based analysis of the origin of extracellular matrix in intestinal fibrosis in Crohn's disease	Yao Zhang	Ruijin Hospital, Shanghai Jiaotong University School of Medicine	Best Abstract Award
BA10	2-Basic Research	Select food additives affect the growth of bacteria driving the inflammatory tenor of the mucosa-associated microbiome in Crohn's disease. The ENIGMA study.	J.J. Jimenez Loayza	The University of Queensland Diamantina Institute, Faculty of Medicine	Best Abstract Award
DIA01	1-Clinical Research	Efficacy and safety of ustekinumab for ulcerative colitis through 3 years: UNIFI long-term extension	Maria Abreu	University of Miami Miller School of Medicine	Distinguished Investigator Award
DIA02	1-Clinical Research	Efficacy and safety of vedolizumab versus adalimumab in Asian patients with ulcerative colitis: A post-hoc analysis of the VARSITY trial	Joo Sung Kim	Seoul National University Hospital, Seoul National University College of Medicine	Distinguished Investigator Award
DIA03	2-Basic Research	Decreased TMIGD1 Exacerbates Inflammation and Damages Intestinal Epithelial Barrier: A Novel Treatment Target in Crohn's Disease	Longyuan Zhou	The First Affiliated Hospital of Sun Yat-Sen University	Distinguished Investigator Award
DIA04	3-Translational Research (Clinical and Basic)	Neural Adhesive Molecule LRRc4 in Enteric Glial Cells as a Potential Mucosal Barrier Modulator in Crohn's Disease Segmental Progression	Xiaoxi Ma	Department of Gastroenterology, The Sixth Affiliated Hospital, Sun Yat-sen University, Guangzhou, PR China.	Distinguished Investigator Award
DIA05	2-Basic Research	CRL4(DCAF2) downregulation leads to epithelial barrier dysfunction and enhances susceptibility to inflammation	Yu Zhang	Sir Run run Shaw hospital, Zhejiang University school of medicine	Distinguished Investigator Award
DIA06	1-Clinical Research	Gene expression profiling in ulcerative colitis identifies characteristics for anti-tnf response and targets for alternative therapies	Marietta Iacucci	University of Birmingham	Distinguished Investigator Award
DIA07	1-Clinical Research	Post-marketing surveillance of tofacitinib in patients with ulcerative colitis in Japan: an interim report of safety data	Katsuyoshi Matsuoka	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Toho University Sakura Medical Center	Distinguished Investigator Award
DIA08	1-Clinical Research	Food as a risk factor for the development and perpetuation of Crohn's Disease. The international ENIGMA cohort study.	Gina L Trakman	Department of Gastroenterology, St Vincent	Distinguished Investigator Award
DIA09	1-Clinical Research	Pregnancy outcomes in women exposed to ustekinumab (UST) in the Crohn's disease (CD) and ulcerative colitis (UC) clinical trials	Bincy Abraham	Methodist Gastroenterology Associates	Distinguished Investigator Award
DIA10	3-Translational Research (Clinical and Basic)	ADSCs stimulated by VEGF-C alleviate intestinal inflammation via dual mechanisms of enhancing lymphatic drainage by VEGF-C/VEGFR-3 dependent mechanism and inhibition of NF-κB pathway by secretome	Lei Zhang	Department of Gastroenterology, Shanghai Tenth People's Hospital, Tongji University School of Medicine	Distinguished Investigator Award
E001	1-Clinical Research	Prophylactic Antitubercular Therapy Aggravates Disease Behavior in Patients with Crohn's Disease Receiving Anti-TNF Therapy: a Multicenter Study	Fen Liu	Department of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University, Guangzhou, China	e-Poster Oral
E002	1-Clinical Research	Outcome of patients with inflammatory bowel disease and concomitant ankylosing spondylitis: a cohort study from SNU IBD research group	Yu Kyung Jun	Seoul National University Hospital	e-Poster Oral
E003	1-Clinical Research	Impact of Biological Therapy on Healthcare Resource Utilization in Crohn's Disease Patients: A Population-based Cohort Study in Taiwan	Nai-Yu Chen Chen	School of Pharmacy, Institute of Clinical Pharmacy and Pharmaceutical Sciences, College of Medicine, National Cheng Kung University	e-Poster Oral
E004	1-Clinical Research	Real-World Treatment Persistence of Vedolizumab in Inflammatory Bowel Disease Patients in Taiwan: Results From the TSIBD Registry (VIOLET Study)	Wei-Chen Tai	Division of Hepatogastroenterology, Department of Internal Medicine, Kaohsiung Chang Gung Memorial Hospital	e-Poster Oral
E005	1-Clinical Research	Vedolizumab and Ustekinumab are equally effective in the treatment of Ulcerative Colitis irrespective of prior anti-TNF-alpha exposure	Takashi Niwa	Division of Gastroenterology and Hepatology, Department of Medicine, The Jikei University	e-Poster Oral
E006	2-Basic Research	Fingolimod (FTY720) ameliorates dextran sodium sulphate-induced colitis by beneficially modulating gut microbiome and alleviating necroptosis and fibrosis	Han Hee Lee	Division of Gastroenterology, Department of Internal Medicine, College of Medicine, The Catholic University of Korea, Seoul, Republic of Korea	e-Poster Oral
E007	1-Clinical Research	The Hospitalization Burden of Inflammatory Bowel Disease in China: A Nationwide Study from 2013 to 2018	Yiming He	The First Affiliated Hospital of Sun Yat-sen University	e-Poster Oral
E008	1-Clinical Research	Crohn's disease patients who have never received biologic therapy or who are intolerant to infliximab may become the best response subgroup of adalimumab treatment: a single-center, 26-week cohort study	Yubei Gu	Department of gastroenterology, Ruijin hospital, School of medicine, Shanghai Jiao Tong University, China	e-Poster Oral
E009	1-Clinical Research	Healthcare Cost of Inflammatory Bowel Disease in the First 8 Years After Diagnosis: A Territory-Wide Study in Hong Kong	Joyce Wing Yan Mak	The Chinese University of Hong Kong	e-Poster Oral
E010	1-Clinical Research	Adding enteral nutrition to therapies improved histological remission of IBD--a retrospective analysis of 524 IBD patients in the real world	Wu Lin	Department of Gastroenterology and Hepatology, Jinling Hospital	e-Poster Oral
E011	1-Clinical Research	Incidence and risk of malignancy among elderly-onset inflammatory bowel disease: a prospective cohort study from China	ZHENG WANG	Department of Gastroenterology, PUMC Hospital, CAMS and PUMC	e-Poster Oral
E012	3-Translational Research (Clinical and Basic)	The interaction of Th17 differentiations related gene polymorphisms and environmental factors contributing to the disease classification and outcomes of Crohn's disease in Chinese Han population	Gechong Ruan	Peking Union Medical College Hospital	e-Poster Oral
E013	3-Translational Research (Clinical and Basic)	The Role of TNFAIP3 in the Pathogenesis of Intestinal Inflammation	Meiping Yu	Department of Gastroenterology, Tongji Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster Oral
E014	2-Basic Research	SETD8 involved in the progression of IBD via epigenetically regulating P62/SQSTM1 expression	Pin Chen	Zhongnan Hospital of Wuhan University	e-Poster Oral
E015	3-Translational Research (Clinical and Basic)	Characterization of ectopic olfactory receptor, OR51E2 (Olf78) expression in severe ulcerative colitis and DSS-induced experimental colitis	Namjoo Kim	Department of Gastroenterology, Korea University Guro Hospital,	e-Poster Oral
E016	2-Basic Research	IL-33 Regulates The Development Of Inflammatory Bowel Disease Through Its Receptor ST2 In Enteric Glial Cells	Kai Nie	The Department of Gastroenterology in the third xiangya hospital of central south university	e-Poster Oral
E017	1-Clinical Research	Populational Diversity of Gut Microbiota in Southwest China in the Context of Urbanization;	Yang Sun	The First Affiliated Hospital of Kunming Medical University.	e-Poster Oral
E018	3-Translational Research (Clinical and Basic)	Distinct pattern of gut microbial dysbiosis in Crohn's Disease and intestinal tuberculosis - A Machine Learning-based classification models.	Aditya Bajaj	All India Institute of Medical Sciences	e-Poster Oral
E019	2-Basic Research	Integrative Analysis of Multi-omics Profiling - a novel framework for differentiating Crohn's disease from Intestinal tuberculosis	Xiaojun Zhuang	Department of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University	e-Poster Oral
E020	3-Translational Research (Clinical and Basic)	Prevotella copri promotes intestinal carcinogenesis through leucine dependent mTOR-STAT3 signaling pathway	Wu Xuemei	General Hospital, Tianjin Medical University	e-Poster Oral
E021	3-Translational Research (Clinical and Basic)	Child Gut Microbiota-secreted Extracellular Vesicles Enter into Liver to Protect against Gut Inflammation Exacerbated-Hepatic Steatosis; ;	Le Liu	shenzhen hospital, southern medical university	e-Poster Oral
E022	3-Translational Research (Clinical and Basic)	Metagenomic Analysis to Determine The Potential of Viral Infection in Intestinal Tissue as a Cause of Intestinal Inflammation Based on the Bioinformatics Pipeline	Rifaldy Fajar	Computational Biology Laboratory, Yogyakarta State University, Indonesia	e-Poster Oral
E023	2-Basic Research	Cyclosporine A inhibiting the formation of neutrophil extracellular traps via modulating the activity of G6PD in ulcerative colitis	Ziping Ye	The First Affiliated Hospital of Nanjing Medical University	e-Poster Oral

E024	2-Basic Research	Undulating bile acids profiles suppressed colonic inflammation by shaping the plasticity of innate lymphoid cells in the mice with cholecystectomy	Jun Xu	Peking University People's Hospital	e-Poster Oral
E025	2-Basic Research	Excessive mitochondrial fission suppresses mucosal repair through impairing butyrate metabolism of colonocytes in UC	Shichen Fu	Qilu Hospital of Shandong University	e-Poster Oral
E026	1-Clinical Research	Effect of guselkumab induction on early clinical outcome measures in patients with moderately-to-severely active Crohn's disease: results from GALAXI-1 study	Silvio Danese	Humanitas Research Hospital, Milan, Italy	e-Poster Oral
E027	1-Clinical Research	Ustekinumab safety in inflammatory bowel disease: pooled analysis through 5 years in Crohn's disease and 2 years in ulcerative colitis	William J. Sandborn	University of California San Diego, La Jolla, CA, USA	e-Poster Oral
E028	1-Clinical Research	Ustekinumab safety in IBD: comprehensive analysis of major cardiovascular events in Crohn's disease (5 years) and ulcerative colitis (2 years)	Subrata Ghosh	Institute of Translational Medicine, College of Medical and Dental, Sciences, University of Birmingham	e-Poster Oral
E029	1-Clinical Research	Response to biologics in ibd patients assessed by computerized image analysis of probe based confocal laser endomicroscopy with molecular labeling	Marietta Iacucci	University of Birmingham	e-Poster Oral
E030	1-Clinical Research	Clinical, biochemical and molecular predictors of non-response to anti-TNF therapy in patients with IBD : A pilot study	Peeyush Kumar	All India institute of medical sciences	e-Poster Oral
E031	2-Basic Research	Global hospitalization trends for Crohn's disease and ulcerative colitis: systematic review with temporal analyses	Michael J. Buie	University of Calgary	e-Poster Oral
E032	1-Clinical Research	Classification of intestinal fibrosis in Crohn's disease patients using CT Enterography-based deep learning: comparisons with radiomics and radiologists	Meng Jixin	Department of Radiology, The First Affiliated Hospital of Sun Yat-Sen University	e-Poster Oral
E033	3-Translational Research (Clinical and Basic)	A better monitoring strategy for thiopurine-induced leukopenia in inflammatory bowel disease: NUDT15 C415T combined with DNA-thioguanine nucleotide level	Xia Zhu	Department of Gastroenterology, the Sixth Affiliated Hospital, Sun Yat-sen University	e-Poster Oral
E034	1-Clinical Research	Association between endoscopic features and histopathological patterns of colorectal polyps in Cronkhite-Canada syndrome	Qiushi Xu	Peking Union Medical College Hospital	e-Poster Oral
E035	1-Clinical Research	Novel characteristics of scanning electric microscopy in ulcerative colitis	Shun Tanemoto	Novel characteristics of scanning electric microscopy in ulcerative colitis	e-Poster Oral
E036	1-Clinical Research	Predictive value of mesenteric fat alteration by intestinal ultrasound in Crohn's Disease during Infliximab	Zicheng Huang	The sixth affiliated hospital of Sun Yat-Sen university	e-Poster Oral
E037	1-Clinical Research	Allogeneic Umbilical Cord-derived Mesenchymal Stem Cells (TH-SC01) for the Treatment of Complex Perianal Fistulas in Perianal Crohn's Disease: a pilot study.	Wei Juan	Jinling hospital	e-Poster Oral
E038	1-Clinical Research	A study to estimate the proportion of inflammatory bowel disease patients needing biological agents and reasons for their discontinuation.	Vinita Patil	P D Hinduja National Hospital and Medical Research Center, Mahim	e-Poster Oral
E039	1-Clinical Research	The Development and Validation of Anti-Paratuberculosis-Nocardia Polypeptide Antibody [anti-pTNP] for the Diagnosis of Crohn's Disease	Han Gao	Department of Gastroenterology, The Shanghai Tenth People's Hospital of Tongji University	e-Poster Oral
E040	3-Translational Research (Clinical and Basic)	Artificial neural network analysis based immune-related signatures for primary infliximab non-responding patients with ulcerative colitis	Xuanfu Chen	Peking Union Medical College Hospital, Peking Union Medical College, Chinese Academy of Medical Sciences	e-Poster Oral
P001	1-Clinical Research	Design and methodology of the prospective, multicentre, real-world study (VALUE) in China on the safety and effectiveness of vedolizumab	Li Ma	Takeda Pharmaceutical Company Limited	e-Poster
P002	1-Clinical Research	Tofacitinib for the treatment of ulcerative colitis: up to 7.8 years of safety data from global clinical trials	William J Sandborn	Division of Gastroenterology, University of California San Diego	e-Poster
P003	1-Clinical Research	Worldwide post-marketing safety surveillance experience with tofacitinib in ulcerative colitis	David T Rubin	University of Chicago Medicine Inflammatory Bowel Disease Center	e-Poster
P004	1-Clinical Research	Reasons and Factors Contributing to Chinese Patients' Preference for Ustekinumab in Crohn's Disease: A Multicenter Cross-sectional Study	Lingya Yao	Sir Run Run Shaw Hospital, College of Medicine Zhejiang University	e-Poster
P005	1-Clinical Research	Steroid-free remission in patients with ulcerative colitis receiving tofacitinib in real clinical practice. ; ;	Anna Kagramanova	Moscow Clinical Scientific Center named after a. s. Loginov	e-Poster
P006	1-Clinical Research	Exclusive Enteral Nutrition Regulates the Intestinal Flora in Patients with Active Crohn's Disease	Jingjing Jiang	Medical School of Southeast University	e-Poster
P007	1-Clinical Research	The Correlation between Serum Fatty Acid Profile and Activity of Inflammatory Bowel Disease	Shuyu Jiang	Medical School of Southeast University	e-Poster
P008	1-Clinical Research	Autosomal recessive 333 base pair Interleukin 10 receptor alpha subunit deletion in very early-onset inflammatory bowel disease	Jia-jia Lv	Dept. of Pediatrics, Ruijin Hospital, Shanghai Jiao Tong University, School of Medicine	e-Poster
P009	2-Basic Research	Atrial Natriuretic Peptide Attenuates colitis via the cGAS-STING Pathway in Intestinal Epithelial Cells	Chaoyue Chen	Department of Gastroenterology, Union Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P010	1-Clinical Research	The effectiveness of the optimized scheme of therapy with ustekinumab in patients with Crohn's disease with previous anti-TNF therapy	Oleg Knyazev	Moscow Scientific Center named after A. S. Loginov	e-Poster
P011	2-Basic Research	Anti-inflammation therapy with HMGB1 A box via liposome to LPS stimulated macrophages and DSS-induced colitis via HMGB1/TLR4/NF-κB pathway	Wensong Ge	Department of Gastroenterology, Xinhua Hospital, School of Medicine, Shanghai Jiao Tong University	e-Poster
P012	1-Clinical Research	Anxiety and depression in patients with inflammatory bowel diseases at the Moscow Clinical Research Center named after A. S. Loginov	Oleg Knyazev	Moscow Scientific Center named after A. S. Loginov	e-Poster
P013	2-Basic Research	TOB1 blocks intestinal mucosal inflammation through inducing ID2-mediated suppression of Th1/Th17 cell immune responses in IBD	Ritian Lin	The Shanghai Tenth People's Hospital of Tongji University	e-Poster
P014	1-Clinical Research	An analysis of non-melanoma skin cancer rates in the tofacitinib ulcerative colitis clinical program	Bruce E Sands	Dr. Henry D. Janowitz Division of Gastroenterology, Icahn School of Medicine at Mount Sinai	e-Poster
P015	1-Clinical Research	Patients' views of shared decision making in IBD: An investigation in China	Dingting Xu	The Second Affiliated Hospital, School of Medicine, Zhejiang University	e-Poster
P016	1-Clinical Research	Usefulness of Transabdominal Ultrasonography in Immune-Mediated Colitis	Kensuke Sakurai	Department of Gastroenterology and Hepatology, Hokkaido University Graduate School of Medicine	e-Poster
P017	1-Clinical Research	Real-world pattern of biologic use in patients with inflammatory bowel disease: the Taiwan Society of Inflammatory Bowel Disease (TSIBD) study	Wei-Chen Lin	Division of Gastroenterology, Department of Internal Medicine, Mackay Memorial Hospital, Taipei, Taiwan	e-Poster
P018	1-Clinical Research	Association between efficacy outcomes and prior duration of remission in patients with ulcerative colitis receiving tofacitinib: 6-month data from RIVETING	Marla C Dubinsky	Icahn School of Medicine at Mount Sinai	e-Poster
P019	1-Clinical Research	Pharmacokinetics (PK), Safety, and Tolerability of Etrasimod in Participants With Mild, Moderate, or Severe Hepatic Impairment: Single-dose, Open-label, Parallel-group Study	Caroline A. Lee	Arena Pharmaceuticals, Inc.	e-Poster
P020	1-Clinical Research	Characteristics of fecal microbiota to predict postoperative endoscopic recurrence in patients with Crohn's disease	Haichao Wang	Department of Gastroenterology, Shanghai Tenth People's Hospital, Tongji University School of Medicine	e-Poster
P021	1-Clinical Research	Identifying patients with Crohn's disease at high risk of primary nonresponse to infliximab therapy using a radiomic-clinical nomogram	Xuehua Li	Department of Radiology, The First Affiliated Hospital, Sun Yat-Sen University	e-Poster
P022	1-Clinical Research	Effect of Etrasimod on Circulating Lymphocyte Subsets: Data From a Randomized Phase 1 Study in Healthy Japanese and Caucasian Men	H. Kiyomi Komori	Arena Pharmaceuticals, Inc.	e-Poster
P023	3-Translational Research (Clinical and Basic)	Targeting Type I Collagen to Stage the Progression of Fibrosis in Crohn's Disease Using MR Imaging Probe	Baolan Lu	Targeting Type I Collagen to Stage the Progression of Fibrosis in Crohn's Disease Using MR Imaging Probe	e-Poster
P024	2-Basic Research	An Escherichia coli strain with extra catalase activity protects against murine colitis by scavenging hydrogen peroxide and regulating regulatory t cell/interleukin-17 pathways	Da Hye Kim	Department of Internal Medicine and Institute of Gastroenterology, Yonsei University College of Medicine	e-Poster
P025	2-Basic Research	Ferroptosis of intestinal epithelial cells in ulcerative colitis	Xinyu Bai	The First Affiliated Hospital of Kunming Medical University	e-Poster
P026	1-Clinical Research	Loss of Response and Requirement of Ustekinumab Dose Escalation in Inflammatory Bowel Diseases: A Systematic Review with Meta-analysis	Hongsheng Yang	the Sixth Affiliated Hospital of Sun Yat-sen University	e-Poster
P027	1-Clinical Research	Incidence and risk factors of venous thromboembolism in inpatients with inflammatory bowel disease.	Yasuhiro Aoki	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Keio University School of Medicine, Tokyo, Japan.	e-Poster
P028	2-Basic Research	IL-17 dependent fibroblastic reticular cell training alleviates pathogen induced colitis	Dongwen Wu	Central South University, Gastrointestinal department, Xiangya Hospital	e-Poster

P029	1-Clinical Research	Early Influximab Trough Levels Predict Long-term Efficacy of Influximab in a Randomized Controlled Trial in Patients with Active Crohn's Disease Comparing between CT-P13 and Originator Influximab	J. Park	Yonsei University College of Medicine	e-Poster
P030	1-Clinical Research	UCEIS is superior to MES and DUBLIN scores in evaluating the clinical prognosis of patients with ulcerative colitis	Chenxi Xie	Zhongshan Hospital Affiliated to Xiamen University	e-Poster
P031	1-Clinical Research	A new structure-based sonographic parameter for estimating endoscopic remission in ulcerative colitis: submucosa index (SMI)	Jun Miyoshi	Kyorin University School of Medicine Department of Gastroenterology and Hepatology	e-Poster
P032	2-Basic Research	Anti-TNF- $\alpha$ Monoclonal Antibody Therapy Improves Anemia through Downregulating Hepatocyte Hepcidin Expression in Inflammatory Bowel Disease.	Weigang Shu	Shanghai Tenth People's Hospital	e-Poster
P033	1-Clinical Research	An assessment of additional training requirements for professional endoscopists to facilitate accurate diagnosis of inflammatory bowel diseases	Dong Yang	the First Hospital of Jilin University	e-Poster
P034	1-Clinical Research	Development and validation of Mucosal Healing prediction algorithm for evaluating Crohn's disease: a retrospective multicenter cohort study;	Nana Tang	Jiangsu	e-Poster
P035	1-Clinical Research	Serum and fecal oncostatin M are noninvasive biomarkers of disease monitoring and influximab response in inflammatory bowel disease	Ying Cao	Zhejiang University School of Medicine Second Affiliated Hospital	e-Poster
P036	1-Clinical Research	Tofacitinib for the treatment of ulcerative colitis: analysis of malignancy rates from the ulcerative colitis clinical program	Ryan C Ungaro	Dr. Henry D. Janowitz Division of Gastroenterology, Icahn School of Medicine at Mount Sinai	e-Poster
P037	1-Clinical Research	Hepatitis B virus reactivation risk in patients with immune-mediated inflammatory disease receiving biologics	Soo Min Ahn	Department of Rheumatology, Asan Medical Center	e-Poster
P038	1-Clinical Research	Correlation Analysis between Coagulation Dysfunction and the Activity of Inflammatory Bowel Disease	Yaqi Zhao	The 1st affiliated hospital of Dalian Medical University	e-Poster
P039	1-Clinical Research	Analysis of Anxiety and Depression Status and Its Correlation with Inflammatory Cytokines in Patients with Inflammatory Bowel Disease	Mengyuan Xu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P040	1-Clinical Research	Clinical Significance of Serum Antibody Detection in Patients with Inflammatory Bowel Disease	Xia Tan	The 1st affiliated hospital of Dalian Medical University	e-Poster
P041	1-Clinical Research	Safety and Efficacy of Granulocyte and Monocyte Adsorption Apheresis in Patients With Ulcerative Colitis	Ke qiu Qu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P042	1-Clinical Research	Influence of GMA on Serum Cytokines in Patients with Ulcerative Colitis	Ning Liu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P043	1-Clinical Research	Clinical Significance and Monitoring of Influximab Trough Levels and Anti-Influximab Antibodies in Patients with Inflammatory Bowel Disease	Xiu xue Hao	The 1st affiliated hospital of Dalian Medical University	e-Poster
P044	1-Clinical Research	Treatment of moderate to severe ulcerative colitis by using granulocyte and monocyte adsorption apheresis(GMA) to evaluate its efficacy and safety--A report of 8 cases	Qing Zhao	The 1st affiliated hospital of Dalian Medical University	e-Poster
P045	1-Clinical Research	GMA vs. Influximab for moderate to severe active ulcerative colitis: a retrospective observational study	Yu Chen	The 1st affiliated hospital of Dalian Medical University	e-Poster
P046	1-Clinical Research	The Prevalence of Extraintestinal Manifestations in IBD	Kashif Iftikhar	The 1st affiliated hospital of Dalian Medical University	e-Poster
P047	4-Case	Crohn's disease of the oesophagus: Case report and literature review	JAYVIN SOBUN	The 1st affiliated hospital of Dalian Medical University	e-Poster
P048	1-Clinical Research	A Retrospective Study for Evaluation of Inflammatory Activity in UC Patients, A Report of 30 Cases	Jawad Ali	The 1st affiliated hospital of Dalian Medical University	e-Poster
P049	1-Clinical Research	Clinical Significance of D-dimer, PT, FIB and PLT in Patients with Ulcerative Colitis	Shengping Chu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P050	1-Clinical Research	Treatment of Inflammatory bowel disease Using Tumour Necrosis Factor Alpha Inhibitors (Influximab) -A report of 28 cases	Satya Singh	The 1st affiliated hospital of Dalian Medical University	e-Poster
P051	1-Clinical Research	Clinical Diagnostic Value of Perinuclear Anti-neutrophil Antibody and Anti-intestinal Goblet Cell Antibody in Ulcerative Colitis	Wenhui Zhu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P052	1-Clinical Research	The Initial Establishment of Access Database for Ulcerative Colitis	Xiuli Chen	The 1st affiliated hospital of Dalian Medical University	e-Poster
P053	1-Clinical Research	A Retrospective Analysis of 294 Patients with Ulcerative Colitis	Juan Chen	The 1st affiliated hospital of Dalian Medical University	e-Poster
P054	2-Basic Research	Therapeutic Effect of 5-ASA-loaded SiO2 Nanoparticles Targeting on Ulcerative Colitis in Mice	Dan Xiang	The 1st affiliated hospital of Dalian Medical University	e-Poster
P055	1-Clinical Research	Clinical study on Saccharomyces boulardii in the Treatment Of Patients with Mild to Moderate Ulcerative Colitis	Hao Wu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P056	2-Basic Research	The Colonic Expression of Flt3 and Flt3L in The Mice Model of Ulcerative Colitis	Yushuang Huang	The 1st affiliated hospital of Dalian Medical University	e-Poster
P057	2-Basic Research	The protective role of AE-941 (Neovastate) on ulcerative colitis in rats	Xiaomei He	The 1st affiliated hospital of Dalian Medical University	e-Poster
P058	2-Basic Research	Effect of Etiasa on the Expression of MMP-2 and TNF- $\alpha$ in Rat Model of Ulcerative Colitis	Gongjun Wang	The 1st affiliated hospital of Dalian Medical University	e-Poster
P059	1-Clinical Research	Clinical Significance of Fecal Calprotectin in Ulcerative Colitis and Irritable Bowel Syndrome	Ying Zhang	The 1st affiliated hospital of Dalian Medical University	e-Poster
P060	2-Basic Research	Expression and Implication of Human $\beta$ -defensin 2 in Ulcerative Colitis	Li Yang	The 1st affiliated hospital of Dalian Medical University	e-Poster
P061	2-Basic Research	Expression and Significance of HNP1-3 in Ulcerative Colitis	Xiaoyan Xu	The 1st affiliated hospital of Dalian Medical University	e-Poster
P062	2-Basic Research	Desulfovibrio vulgaris flagellin exacerbates experimental colitis through LRRC19 signaling	Runxiang Xie	Department of Gastroenterology and Hepatology, General Hospital, Tianjin Medical University	e-Poster
P063	3-Translational Research (Clinical and Basic)	$\alpha$ -glycyrrhizic acid prevents obesity in high-fat diet mice through regulation of gut microbiota and bile acid metabolism	Huiqin Hou	Tianjin Medical University General Hospital	e-Poster
P064	2-Basic Research	Lactobacillus rhamnosus GG colonization in early life regulates gut-brain axis and relieves anxiety-like behavior in adulthood	Bingqian Zhou	Department of Gastroenterology and Hepatology, General Hospital, Tianjin Medical University	e-Poster
P065	1-Clinical Research	The microbiome profile in ulcerative colitis and pouchitis	Xin Gao	Tianjin medical universit general hospital	e-Poster
P066	1-Clinical Research	Combined serological antibodies differentiate non-IBD, Crohn's disease, and ulcerative colitis patients.	YUAN Baisi	Jinling hospital	e-Poster
P067	1-Clinical Research	Continued Postoperative Use of Tumor Necrosis Factor- $\alpha$ ; Inhibitors for the Prevention of Crohn's Disease Recurrence	Jongwook Yu	Yonsei University College of Medicine	e-Poster
P068	2-Basic Research	Therapeutic Effect of Indirubin-loaded Bovine Serum Albumin Nano-particles on Ulcerative Colitis	Guang-Min Yu	Department of Gastroenterology, the Third Affiliated Hospital of Guangzhou Medical University	e-Poster
P069	3-Translational Research (Clinical and Basic)	Microbial Changes in Stool, Saliva, Serum, and Urine Before and After Anti-Tumor Necrosis Factor- $\alpha$ Therapy in Patients with Inflammatory Bowel Diseases	Yong Eun Park	Division of Gastroenterology, Department of Internal Medicine, Inje University College of Medicine, Haeundae Paik Hospital, Republic of Korea	e-Poster
P070	1-Clinical Research	Short-term outcomes of isoperistaltic side-to-side anastomosis (ISSA) in Crohn's disease	Wenhao Chen	Colorectal Surgery Department, Zhongnan Hospital of Wuhan University	e-Poster
P071	1-Clinical Research	Short-term tolerability and effectiveness of methotrexate monotherapy in adult patients with Crohn's disease: A retrospective study	Hee Seung Hong	Department of Gastroenterology, Asan Medical Center	e-Poster
P072	4-Case	A case report and literature review: Rectal inflammatory myofibroblastic tumor	Hyung-Hoon Oh	Chonnam National University Medical School	e-Poster
P073	2-Basic Research	Lactobacillus rhamnosus GG/p40 and vitamin D3 play a synergistic protective role on mice colitis by promoting vitamin D receptor expression	Dan Chen	Peking Union Medical College Hospital	e-Poster

P074	3-Translational Research (Clinical and Basic)	Peripheral blood DNA methylation profiles predict Ustekinumab response and remain stable during induction and maintenance treatment in moderate-severe Crohn's disease patients.	Vincent Joustra	Amsterdam UMC location AMC	e-Poster
P075	1-Clinical Research	Medication Belief is associated with improved Adherence to Exclusive Enteral Nutrition in Patients with Crohn's Disease	Shuyan Li	The Second Affiliated Hospital,Zhejiang University School of Medicine	e-Poster
P076	1-Clinical Research	Comparison of Clinical Outcomes between Radiological and Endoscopic Strictures in Ileocolonic Crohn's Disease: Which Types of Bowel Strictures Require More Attention from Clinician?	LI SHI	Department of Radiology, The First Affiliated Hospital,Sun Yat-Sen University	e-Poster
P077	1-Clinical Research	Association between Helicobacter pylori infection and Inflammatory Bowel Disease in Children: A Systematic Review and Meta-Analysis	GUIPING KONG	Department of Gastroenterology,Children's Hospital of Nanjing Medical University	e-Poster
P078	2-Basic Research	Fecal Microbiota Transplantation Ameliorates Experimental Colitis By Regulating Autophagy	Haoming Xu	Department of Gastroenterology and Hepatology, Guangzhou Digestive Disease Center, Guangzhou First People's Hospital, School of Medicine, South China University of Technology	e-Poster
P079	2-Basic Research	Sodium Butyrate Ameliorates Dextran Sulfate Sodium Induced Colitis In Mice By Regulating Gut Microbiota	Haoming Xu	Department of Gastroenterology and Hepatology, Guangzhou Digestive Disease Center, Guangzhou First People's Hospital, School of Medicine, South China University of Technology	e-Poster
P080	1-Clinical Research	Analysis of Treatment Status of Crohn's Disease in Southeast China in Recent 11 Years	Ruiling Lu	The First Affiliated Hospital of Nanchang University	e-Poster
P081	1-Clinical Research	Machine learning model incorporating computed tomography body composition features for predicting the response to mesalamine treatment in Crohn's disease	Linlin Chen	Xiangya Hospital of Central South University	e-Poster
P082	2-Basic Research	Bacillus amyloliquefaciens Combined with Resistant Starch to ameliorate Intestinal Inflammation	Hailan Zhao	Department of Gastroenterology and Hepatology, Guangzhou Digestive Disease Center, Guangzhou First People's Hospital, School of Medicine, South China University of Technology	e-Poster
P083	2-Basic Research	Dendritic cells secrete S100A8 in ulcerative colitis besides neutrophils and macrophages	Dandan Wang	the Second Affiliated Hospital of Zhengzhou University	e-Poster
P084	2-Basic Research	The Effect and Immune Cell Analysis of Clostridium Butyricum on Dextran Sulphate Sodium Induced Colitis in Mice Pretreated with Antibiotic Cocktail	Jing Xu	Department of Gastroenterology and Hepatology, Guangzhou Digestive Disease Center, Guangzhou First People's Hospital, School of Medicine, South China University of Technology	e-Poster
P085	2-Basic Research	The Efficacy and Gut Microbiota Analysis of Clostridium Butyricum in Dextran Sulphate Sodium Induced Colitis of Mice after Antibiotic Cocktail Pretreatment	Jing Xu	Department of Gastroenterology and Hepatology, Guangzhou Digestive Disease Center, Guangzhou First People's Hospital, School of Medicine, South China University of Technology	e-Poster
P086	2-Basic Research	Astragalus polysaccharide modulates ferroptosis in a murine model of colitis and human Caco-2 cells via the NRF2/HO-1 pathway	YanJun Chen	The First Affiliated Hospital of Soochow University	e-Poster
P087	1-Clinical Research	Longitudinal bowel behavior assessed by bowel ultrasound in prediction of early response to anti-TNF therapy in patients with Crohn's disease: a pilot study	Yujun Chen	The first affiliated hospital of Sun Yat-sen University	e-Poster
P088	3-Translational Research (Clinical and Basic)	Identification of differentially expressed genes related to ulcerative colitis associated-colorectal cancer by bioinformatics analysis	JINGYI CHEN	Peking University People's Hospital	e-Poster
P089	2-Basic Research	Th17 cell-derived amphiregulin promotes colitis-associated intestinal fibrosis; through activation of mTOR and MEK ;	Xiaojing Zhao	First Affiliated Hospital of Nanjing Medical University	e-Poster
P090	2-Basic Research	Lactobacillus rhamnosus GG Improves Sleep Deprivation Induced-Intestinal Barrier Dysfunction	Xiaoqi Pang	Department of Gastroenterology and Hepatology, General Hospital, Tianjin Medical University,	e-Poster
P091	3-Translational Research (Clinical and Basic)	MCP-1-mediated immunosuppression of neutrophils exacerbates acute bacteria-driven inflammation	Jian Lin	Center for Inflammatory Bowel Disease Research, The Shanghai Tenth People's Hospital of Tongji University School of Medicine	e-Poster
P092	1-Clinical Research	Detection of A Novel Antigen for Crohn's Disease	Yarong Wei	Department of Gastroenterology, the First Affiliated Hospital of Anhui Medical University	e-Poster
P093	3-Translational Research (Clinical and Basic)	Digital Spatial Profiling Reveals Functional Shift of Enterochromaffin Cell in Patients with Ulcerative Colitis	Dongping Lyu	Department of Gastroenterology, Qilu Hospital, Cheeloo College of Medicine, Shandong University	e-Poster
P094	1-Clinical Research	Prospective randomized controlled clinical study of mesalazine in the treatment of nonspecific terminal ileal ulcers	Junrong Li	Union Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P095	2-Basic Research	Analysis between fungal microbiota and clinical phenotypes in Crohn's disease in southwest China	Li Zeng	Department of Gastroenterology, West China Hospital, Sichuan University	e-Poster
P096	1-Clinical Research	PET/MRI for Evaluating Subclinical Inflammation of Crohn's Disease	I-Lun Shih	Department of Medical Imaging, National Taiwan University Hospital	e-Poster
P097	3-Translational Research (Clinical and Basic)	Serum interleukin-6 level in the early detection of Crohn's disease with Epstein-Barr virus infection	Chunhua Jiao	The First Affiliated Hospital of Nanjing Medical University	e-Poster
P098	1-Clinical Research	Longer diagnosis-surgery duration is associated with an increased risk of early postoperative complications for Crohn's disease: a retrospective study	Xuanyi Chen	Shanghai Jiao Tong University School of Medicine Affiliated Renji Hospital	e-Poster
P099	1-Clinical Research	Prealbumin and Retinol-Binding Protein 4: the Nutritional-Inflammatory Biomarkers for Identifying Endoscopic Remission in Crohn's Disease	Rirong Chen	The First Affiliated Hospital of Sun Yat-Sen University	e-Poster
P100	3-Translational Research (Clinical and Basic)	Predicting Outcomes for Crohn's disease using a molecular biomarker: PROFILE trial interim update	Nurulamin Noor	Cambridge University Hospitals NHS Trust	e-Poster
P101	1-Clinical Research	Comparative effectiveness of second-line biological therapies for ulcerative colitis and Crohn's disease in patients with prior failure of anti-tumour necrosis factor treatment	Hye Kyung Hyun	Department of Gastroenterology and Institute of Gastroenterology, Yonsei University College of Medicine, Yongin Severance Hospital	e-Poster
P102	1-Clinical Research	The Role of Perioperative Blood Glucose Level in Predicting Postoperative Recurrence of Crohn's Disease	Chao Li	The First Affiliated Hospital of Sun Yat-sen University	e-Poster
P103	1-Clinical Research	Serum Interleukin 38 Levels are Associated with Disease Severity and Lesion Location in Patients with Crohn's Disease	Yihan Xu	Affiliated Jinling Hospital, Medical School of Nanjing University	e-Poster
P104	1-Clinical Research	Peripheral blood mononuclear cell microRNAs are novel biomarkers for diagnosing and monitoring Crohn's disease	Hanwen Chen	the Second Affiliated Hospital of Zhejiang University, School of Medicine	e-Poster
P105	2-Basic Research	NEDD8 activating enzyme inhibitor MLN4924 aggravates intestinal inflammation by inhibiting the proliferation and repairment of intestinal epithelial cells	Chaohui Wang	Gastroenterology Department, Sir Run Run Shaw Hospital, Zhejiang University School of Medicine,	e-Poster
P106	2-Basic Research	Faecalibacterium prausnitzii supernatant attenuates TNBS-induced colitis by regulating M2 macrophage polarization	Xiaojong Mao	The first clinical medical college of Nanjing Medical University	e-Poster
P107	2-Basic Research	DCAF2 alleviates intestinal inflammation by regulating the proliferation and autophagy of intestinal epithelial cells;	Yu Zhang	Gastroenterology Department, Sir Run Run Shaw Hospital, Zhejiang University School of Medicine	e-Poster
P108	2-Basic Research	Effects of mitochondrial DNA on permeability of Caco-2 cells and its; mechanism	Li Huihui	Dept of Gastroenterology, The First Affiliated Hospital of Anhui Medical University	e-Poster
P109	2-Basic Research	Maternal diets effect the intestinal flora of offspring mice in their early life	Linlin Chen	Xiangya Hospital of Central South University	e-Poster
P110	1-Clinical Research	UCC: A Novel Model Predicting Short-term Outcomes in Patients with Acute Severe Ulcerative Colitis	Si Yu	1. Department of Gastroenterology, Peking Union Medical College Hospital, Chinese Academy of Medical Sciences & Peking Union Medical College	e-Poster
P111	1-Clinical Research	Anti-TNFα agents in preventing the postoperative recurrence of Crohn's disease: Do they still play a role in the biological era?	Caiguang Liu	Department of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University	e-Poster
P112	1-Clinical Research	Measurement of stiffness of the normal terminal ileum mesentery using Shear Wave Elastography	yujun chen	The first affiliated hospital of Sun Yat-sen University	e-Poster
P113	1-Clinical Research	The clinical value of the Nancy histological index in assessing the activity degree of ulcerative colitis disease	JIA Zhe	Affiliated Hospital of Hebei University	e-Poster
P114	1-Clinical Research	Study on the Efficacy and Safety of Fecal Microbiota Transplantation Combined with Biologics in the Treatment of Inflammatory Bowel Disease	Di Zhao	Department of Colorectal Disease, Shanghai Tenth People's Hospital, Tongji University School of Medicine	e-Poster
P115	1-Clinical Research	Study on The Correlation Between GSTP1 Gene Polymorphism and Inflammatory Bowel Disease in Guangxi Zhuang Population and Han Population	Yan Chen	Guangxi	e-Poster
P116	2-Basic Research	Phellodendrine promotes autophagy by regulating the AMPK/mTOR pathway and treats ulcerative colitis	Weilong Zhong	Tianjin Medical University General Hospital	e-Poster
P117	2-Basic Research	Autotaxin (ATX) inhibited autophagy through mTOR pathway and destroyed intestinal epithelial barrier in colitis	Wenjie Shi	Dep.Gastroenterology, Tongji Hospital, Tongji Medical College, Huazhong University of Science & Technology	e-Poster

P118	2-Basic Research	A new pathway ameliorating post-traumatic stress disorder : focus on roseburia intestinalis and the "gut-brain" axis.	fenghua xu	Department of Gastroenterology, Army Medical Center of PLA affiliated with Army Medical University	e-Poster
P119	1-Clinical Research	Oral beclomethasone dipropionate as an add-on therapy and response prediction in Korean patients with ulcerative colitis	Kyuwon Kim	Department of Gastroenterology, University of Ulsan College of Medicine, Asan Medical Center, Korea	e-Poster
P120	1-Clinical Research	Association between early vedolizumab trough levels and biochemical remission in patients with Crohn's disease	Kyuwon Kim	Department of Gastroenterology, University of Ulsan College of Medicine, Asan Medical Center, Korea	e-Poster
P121	1-Clinical Research	Application of a clinical decision support tool for predicting biochemical remission with vedolizumab therapy in patients with ulcerative colitis	Kyuwon Kim	Department of Gastroenterology, University of Ulsan College of Medicine, Asan Medical Center, Korea	e-Poster
P122	1-Clinical Research	Ustekinumab improves health-related quality of life in patients with moderate-to-severe Crohn's disease: results up to Week-48 of the STARDUST trial	Silvio Danese	IBD Center, Humanitas University, Milan, Italy	e-Poster
P123	3-Translational Research (Clinical and Basic)	The impact of exclusive enteral nutrition on the gut microbiome and bile acid metabolism in pediatric Crohn's disease	Yao Lv	Children's Hospital, Zhejiang University School of Medicine	e-Poster
P124	1-Clinical Research	Maintenance of clinically meaningful improvement in health-related quality of life in moderate-to-severe Crohn's disease, ustekinumab-treated patients: IM-UNITI long-term extension study	William J. Sandborn	University of California San Diego, La Jolla, CA, USA	e-Poster
P125	2-Basic Research	BAFF Blockade Attenuates Inflammatory Responses and Inhibits NLRP3 inflammasome in DSS-induced colitis	ying zhang	Union Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P126	1-Clinical Research	The prevalence of concomitant small bowel lesions in Crohn's disease and their effects on reoperation in patients undergoing ileocolic resection	Wenwei Qian	General Hospital Of Eastern Theater Command	e-Poster
P127	1-Clinical Research	Long-term outcomes of Crohn's disease patients with transmural structural bowel damage: Results from a single center study	Wenwei Qian	General Hospital Of Eastern Theater Command	e-Poster
P128	2-Basic Research	Microbiota Metabolite Butyrate Differentially Regulates Th1 and; Th17 Cells' Differentiation and Function in Induction of Colitis	Liang Chen	Department of Gastroenterology, The Shanghai Tenth People's Hospital, Tongji University, Shanghai, China	e-Poster
P129	1-Clinical Research	Randomized controlled trial: perioperative dexamethasone reduces excessive postoperative inflammatory response and ileus after surgery for inflammatory bowel disease	Tenghui Zhang	Jinling Hospital	e-Poster
P130	3-Translational Research (Clinical and Basic)	Effect of guselkumab induction therapy on inflammatory biomarkers in moderately-to-severely active Crohn's disease patients: Week 12 results from GALAXI-1 Study	Bruce Sands	Icahn School of Medicine at Mount Sinai	e-Poster
P131	1-Clinical Research	Elevated Levels of IL-27 are Associated with Disease Activity in Patients with Crohn's Disease	Xiufang Cui	Department of Gastroenterology, First Affiliated Hospital of Nanjing Medical University	e-Poster
P132	1-Clinical Research	Appendiceal orifice inflammation is associated with lower rate of mucosal healing in patients with ulcerative colitis	Chang Kyo Oh	The Catholic University of Korea Seoul St. Mary	e-Poster
P133	1-Clinical Research	Computed Tomography Enterography Findings Correlate with Histological Changes and Predict the Requirement of Surgical Intervention in Stenosing Crohn's Disease	Ming Duan	Department of General Surgery, Jinling Hospital, Nanjing Medical University	e-Poster
P134	1-Clinical Research	Analysis on clinical and endoscopic features of patients with ulcerative colitis - associated colorectal neoplasia	Wenyu Jiang	First Affiliated Hospital of Nanjing Medical University	e-Poster
P135	1-Clinical Research	Clinical differences between elderly-onset ulcerative colitis and non-elderly-onset ulcerative colitis	Fangmei Ling	Division of Gastroenterology, Union Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P136	1-Clinical Research	Stigma and self-efficacy among Inflammatory Bowel Diseases patients with stoma in China: cross-sectional web-based survey study	Yuting Wang	the Second Affiliated Hospital of Zhejiang University	e-Poster
P137	1-Clinical Research	A Sequential Study of Follow-up Questionnaires on the Impact of the Coronavirus Disease 2019 Pandemic on Patients with Inflammatory Bowel Disease in Hubei Province, China	Meiping Yu	Department of Gastroenterology, Tongji Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P138	1-Clinical Research	Increased Clinical Remission in Patients with Crohn's Disease Receiving Proactive Monitoring of Infliximab Trough Concentration Compared with Reactive Monitoring	Yue Zhang	Department of Gastroenterology, First Affiliated Hospital of Nanjing Medical University, Nanjing, China	e-Poster
P139	1-Clinical Research	Association of Magnetic-Guided Capsule Endoscopy, Magnetic Resonance Enterography findings and Pediatric Crohn's Disease Activity Index for pediatric patients with Crohn's disease	Jia Li	Department of Paediatrics, Ruijin Hospital, Shanghai Jiao Tong University School of Medicine	e-Poster
P140	2-Basic Research	Furin inhibits epithelial cell injury and alleviates experimental colitis by activating the Nr2-Gpx4 signaling pathway	Shouquan Dong	ZhongNan Hospital of Wuhan University	e-Poster
P141	1-Clinical Research	Identification of microRNA-16-5p and microRNA-21-5p in feces as potential noninvasive biomarkers for inflammatory bowel disease	Rui Zhou	Zhongnan Hospital of Wuhan University	e-Poster
P142	2-Basic Research	Carboxypeptidase A6 was identified and validated as a novel potential biomarker for predicting the occurrence of active ulcerative colitis	Haizhou Wang	Zhongnan hospital of Wuhan University	e-Poster
P143	1-Clinical Research	Risk factors and characteristics associated with nonalcoholic fatty liver disease in patients with ischemic colitis	Xixian Zhao	Zhongnan hospital of Wuhan university	e-Poster
P144	4-Case	Primary extrasensory nasal-type natural killer/T-cell lymphoma of the sigmoid colon and ileocecal junction: a case report	Chang Gao	Zhongnan Hospital of Wuhan University	e-Poster
P145	1-Clinical Research	Preliminary clinical analysis of argon ion coagulation and submucosal drug injection in the treatment of radioactive enteritis	Guanlin Lu	武汉大学中南医院	e-Poster
P146	1-Clinical Research	Clinical Analysis of Extraintestinal Manifestations in 122 Patients with Ulcerative Coliti	Guanghui Ren	the second affiliated Hospital of Dalian Medical University	e-Poster
P147	2-Basic Research	Group2 innate lymphoid cells are down-regulated in intestinal inflammation	Emi Irie	Keio University	e-Poster
P148	2-Basic Research	A high-salt diet protects interleukin 10-deficient mice against chronic colitis through improving the mucosal epithelial barrier	Dezhi Wang	Department of Gastroenterology, Seventh Medical Center of Chinese PLA General Hospital	e-Poster
P149	3-Translational Research (Clinical and Basic)	Clinical characteristics and outcomes in ustekinumab-treated adults in the UNITI studies by age at Crohn's disease onset	Stanley Cohen	Children's Center for Digestive Health, Atlanta	e-Poster
P150	3-Translational Research (Clinical and Basic)	Histologic Features Predicting Prognosis And Their Relationship With Endoscopic Findings In Ulcerative Colitis Patients With Mucosal Healing	Kisung Kim	Chung-Ang University College of Medicine, Department of Internal Medicine	e-Poster
P151	2-Basic Research	Clinical efficacy of fecal microbiota transplantation for patients with small intestinal bacterial overgrowth-A randomized, placebo-controlled trial study	Lu Chen	Department of Gastroenterology, Army Medical Center of PLA affiliated with Army Medical University	e-Poster
P152	2-Basic Research	Inflammatory Bowel Disease Intelligent Identification Based on Deep Learning Using Colonoscopy Images	Guangcong Ruan	Department of Gastroenterology, Army Medical Center of PLA affiliated with Army Medical University	e-Poster
P153	2-Basic Research	Inflammatory Bowel Disease Intelligent Identification Based on Deep Learning Using Colonoscopy Images	Guangcong Ruan	Department of Gastroenterology, Army Medical Center of PLA affiliated with Army Medical University	e-Poster
P154	1-Clinical Research	Free antibody-to-infliximab is a superior biomarker for predicting clinical outcomes in Crohn's disease than total antibody-to-infliximab	Eun Sil Kim	Samsung Medical Center	e-Poster
P155	2-Basic Research	Efficacy of Faecal Microbiota Transplantation in Patients with Parkinson's Disease: A Randomized, Single-blind, Placebo-controlled Study	Yi Cheng	Department of Gastroenterology, Army Medical Center of PLA affiliated with Army Medical University	e-Poster
P156	2-Basic Research	The effect of PAI-1 on endoplasmic reticulum stress related signal pathway in rat model with inflammatory bowel disease	Zhang Lei	Xiaoshan First People's Hospital	e-Poster
P157	1-Clinical Research	The pharmacokinetics and immunogenicity of 5 years of treatment with ustekinumab (UST): Results from the IM-UNITI long-term extension (LTE)	Omoniyi J. Adedokun	Janssen Research & Development, LLC	e-Poster
P158	1-Clinical Research	The clinical efficacy of five-flavor sophora flavescens enteric-coated capsules combined with mesalazine in the treatment of ulcerative colitis;	XIAOJING QUAN	1Department of Gastroenterology, Second Affiliated Hospital of Xi'an Jiaotong University	e-Poster
P159	1-Clinical Research	Clinical Study on the Relationship Between Serum Homocysteine and Ulcerative Colitis	Kaicheng Xie	the second affiliated Hospital of Dalian Medical University	e-Poster
P160	2-Basic Research	MyD88 inhibition-induced intestinal microbial imbalance stimulates inflammatory response via NOD-like receptor signaling pathway	Yu Chen	Department of Gastroenterology, Tongji Hospital of Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P161	1-Clinical Research	Comparative study of mucus volume in patients with ulcerative colitis	Yu Kamitani	Tottori University	e-Poster
P162	1-Clinical Research	Study on reliability and validity of Chinese version of inflammatory bowel disease disability index	Han Xu	the Second Affiliated Hospital of Soochow University	e-Poster

P163	1-Clinical Research	Calprotectin and lactoferrin could be sensitive and specific markers for early IBD screening in high-risk population	Guang-Yao Wu	Dongguan Kanghua Hospital	e-Poster
P164	1-Clinical Research	A Convolutional Neural Network-Based Endoscopic Images Diagnosis System Classifying Crohn's Disease and Ulcerative Colitis	Lijia Wang	Department of Gastroenterology, Tongji Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P165	4-Case	Crohn's disease after rituximab therapy: a case report	Shuai Huang	the First Hospital of Jilin University	e-Poster
P166	3-Translational Research (Clinical and Basic)	Identification of efficacy predictive genes long-term responding to anti- $\alpha$ 4 $\beta$ 7 integrins in ulcerative colitis patients	Yonghao Chen	Department of Gastroenterology, the First Affiliated Hospital of Anhui Medical University	e-Poster
P167	2-Basic Research	Mitochondrial fission is involved in the early inflammation of UC	Shichen Fu	Qilu Hospital of Shandong University	e-Poster
P168	1-Clinical Research	Analysis of Real World Data after Use of the Herbal Medicine "Indigo Naturalis" in Patients with Ulcerative Colitis	Fumie Shimada	Keio University Hospital	e-Poster
P169	2-Basic Research	Microbiota metabolite butyrate constrains neutrophil functions and ameliorates mucosal inflammation in inflammatory bowel disease	Gengfeng Li	Shanghai tenth people's hospital, Tongji University School of Medicine	e-Poster
P170	2-Basic Research	Infliximab Biosimilar CT-P13 Observational Studies for Rheumatoid Arthritis, Inflammatory Bowel Diseases, and Ankylosing Spondylitis: Analysis of Long-Term Safety and Effectiveness	JaeHee Cheon	Yonsei University College of Medicine	e-Poster
P171	2-Basic Research	Pericentriolar material 1 promotes inflammation in ulcerative colitis via activating NLRP3/gasdermin D-mediated pyroptosis	Yunling Wen	Department of Gastroenterology, The First Affiliated Hospital of Kunming Medical University	e-Poster
P172	2-Basic Research	Clostridium butyricum activates JAK2/STAT3 signaling pathway through IL-10 to improve ulcerative colitis	Shuchun Wei	Department of Gastroenterology, Renmin Hospital of Wuhan University	e-Poster
P173	3-Translational Research (Clinical and Basic)	Clinical study on the expression of Piezo1 in small intestinal mucosa of 57 patients with Crohn's disease	Lixue Chen	the first affiliated hospital of anhui medical university	e-Poster
P174	1-Clinical Research	Analysis of clinical features associated with favourable outcomes from ustekinumab treat-to-target strategy in Crohn's disease patients in the STARDUST trial	Silvio Danese	IBD Center, Humanitas University	e-Poster
P175	1-Clinical Research	Patient-reported outcomes (PROs) of response and remission following guselkumab induction treatment: Results through week-12 of the phase-2 GALAXI-1 study	Julian Panes	Hospital Clínic de Barcelona, IDIBAPS, CIBERehd,	e-Poster
P176	1-Clinical Research	Risk Factors of Bone Loss in Ulcerative Colitis Patients and its Relationship with Fecal Microbiota	Li Yingchao	Department of Gastroenterology, The First Affiliated Hospital of Xi'an Jiaotong University	e-Poster
P177	1-Clinical Research	The relationship of histological remission with the duration of the anamnesis; ulcerative colitis.;	Oleg Knyazev	Moscow Scientific Center named after A. S. Loginov	e-Poster
P178	1-Clinical Research	Dose Adjustment in Moderate to Severe Ulcerative Colitis: Results from Year 3 UNIFI Maintenance Study Long-term Extension	David S. Rowbotham	Auckland City Hospital	e-Poster
P179	2-Basic Research	Study on the role of ATX/LPA axis in mucus barrier in colitis murine	Wenjie Shi	The First Affiliated Hospital Of Nanchang University	e-Poster
P180	2-Basic Research	MiR-204-5p regulates macrophage-mediated inflammatory response in ulcerative colitis	Bing Li	Department of Gastroenterology, Qilu Hospital of Shandong University	e-Poster
P181	1-Clinical Research	Risk of Gastric Cancer and Associated Factors in Newly Diagnosed Ulcerative Colitis	Soon Chang Park	Department of Internal Medicine, Yonsei University Wonju College of Medicine	e-Poster
P182	2-Basic Research	Inositol-Requiring Kinase 1 Regulates Apoptosis via Inducing Endoplasmic Reticulum Stress in Colitis Epithelial Cells	Zhang Bei	the 2nd affiliated Hospital of NanChang University	e-Poster
P183	1-Clinical Research	Clinical value of neutrophil monocyte lymphocyte ratio in diagnosing ulcerative colitis and its disease severity	Deng Beiyang	Renmin Hospital of Wuhan University	e-Poster
P184	1-Clinical Research	Differentiating Crohn's Disease from Intestinal Tuberculosis by Fusion; Correlation Neural Network	Yani Yin	Xiangya hospital,CSU	e-Poster
P185	1-Clinical Research	Early PRO-2 symptom remission following guselkumab induction treatment: results through week 12 of the phase 2 GALAXI 1 study	Walter Reinisch	Medical University of Vienna	e-Poster
P186	2-Basic Research	Deletion of IL-6 Exacerbates Colitis and Induces Systemic Inflammation in IL-10-Deficient Mice	Mei Ye	Zhongnan Hospital of Wuhan University	e-Poster
P187	2-Basic Research	Regulation of IL12B expression in human macrophages by TALEN-mediated epigenome editing	Meng Chen	Zhongnan Hospital of Wuhan University	e-Poster
P188	1-Clinical Research	Analysis of the clinical efficacy of infliximab in the treatment of steroid-refractory ulcerative colitis in children	Ying Chen	shengjing hospital of China Medical University	e-Poster
P189	1-Clinical Research	STAT1 epigenetically regulates LCP2 and TNFAIP2 by recruiting EP300 to contribute to the pathogenesis of inflammatory bowel disease	Yali Yu	Zhongnan Hospital of Wuhan University	e-Poster
P190	1-Clinical Research	Intestinal Ultrasound in Evaluating Disease Location, Activity, and Stenosis of Crohn's Disease	Chenjing Xu	The First Affiliated Hospital of Nanjing Medical University	e-Poster
P191	2-Basic Research	Association between NOD2/CARD15 gene polymorphisms and Crohn's disease in Chinese Zhuang patients	Xiaoping Lv	Department of Gastroenterology, The First Affiliated Hospital of Guangxi Medical University	e-Poster
P192	2-Basic Research	IL-21 and Bcl-6 regulate the proliferation and secretion of T <sub>H</sub> and T <sub>FR</sub> cells in the intestinal germinal center of patients with inflammatory bowel disease	Xiaoping Lv	IL-21 and Bcl-6 regulate the proliferation and secretion of T <sub>H</sub> and T <sub>FR</sub> cells in the intestinal germinal center of patients with inflammatory bowel disease	e-Poster
P193	1-Clinical Research	Intestinal ultrasound predicts disease behavior progression in patients with Crohn's disease: a single-center, retrospective study	Jinshen He	Department of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University	e-Poster
P194	3-Translational Research (Clinical and Basic)	Safety of ustekinumab across approved adult indications in Crohn's disease, ulcerative colitis, psoriasis, and psoriatic arthritis through up to 5-Years	Silvio Danese	Professor of Gastroenterology, Humanitas University and Director, IBD Center, Humanitas Research Hospital	e-Poster
P195	2-Basic Research	Cholecystectomy-induce secondary bile acid accumulation ameliorates experimental colitis in mice	Yun Liu	Department of Gastroenterology, Peking University People's Hospital	e-Poster
P196	1-Clinical Research	Study on the correlation between Endoscopic appearance of UC with clinical and histological and analysis of its predictive effect on endoscopic mucosal healing	Xiafei Chen	Nanjing Gulou Hospital	e-Poster
P197	2-Basic Research	Short-chain fatty acids improve intestinal epithelial barrier by regulating the expression of Slc26a3	Kaixin Peng	Department of Gastroenterology, Tongji Hospital of Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P198	1-Clinical Research	Observation on the curative effect of infliximab in treating patients with Perianal fistulizing Crohn's disease	Ruoyi Zhang	The first affiliated hospital of sun yat-sen university	e-Poster
P199	1-Clinical Research	Patients with inflammatory bowel disease and post-inflammatory polyps have an increased risk of colorectal neoplasia: a meta-analysis	Jialing Shi	The First Affiliated Hospital of Guangxi Medical University	e-Poster
P200	2-Basic Research	SLC26A3(DRA) Ameliorates Dextran Sulfate Sodium-Induced Ulcerative Colitis in Mice by Regulating Homeostasis of Gut Microbiota	Suhong Xia	Huazhong University of Science and Technology	e-Poster
P201	1-Clinical Research	Study on the consistency of cytomegalovirus detection between immunohistochemistry and real-time fluorescent quantitative PCR in intestinal mucosal biopsy specimens	guanglan wang	Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P202	2-Basic Research	A Broad m6A Modification Landscape in Inflammatory Bowel Disease	Kai Nie	The Department of Gastroenterology In The Third Xiangya Hospital of Central South University	e-Poster
P203	1-Clinical Research	Dietary Inflammatory Potential associated with disease activity in patients with Crohn's disease	Zhenyi Tian	Department of Gastroenterology. The First Affiliated Hospital of Sun Yat-sen University	e-Poster
P204	3-Translational Research (Clinical and Basic)	A convolutional neural network-based endoscopic images diagnosis system classifying Crohn's Disease and Ulcerative Colitis	Liping Chen	Department of Gastroenterology, Tongji Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P205	2-Basic Research	Anti-inflammatory effect and mechanisms of Hongyuyin Formula on inflammatory bowel disease model via IL-6/JAK2/STAT3 signal pathway	XINXIN ZHANG	Longhua Hospital of Shanghai University of Traditional Chinese Medicine	e-Poster
P206	1-Clinical Research	Ustekinumab safety in older patients with IBD (Crohn's disease + ulcerative colitis) and across all indications: Data from pooled analysis	Subrata Ghosh	Institute of Translational Medicine, NIHR Biomedical Research Centre, University of Birmingham	e-Poster
P207	2-Basic Research	EXTRACELLULAR MATRIX, MILK FAT GLOBULE EPIDERMAL GROWTH FACTOR 8, EXERTS ANTI-FIBROTIC EFFECTS IN CROHN'S DISEASE RELATED-INTESTINAL FIBROSIS	Si-Nan Lin	Department of Gastroenterology and Hepatology, The First Affiliated Hospital of Sun Yat-sen University	e-Poster

P208	2-Basic Research	Therapeutic effect of appendectomy on dextran sodium sulfate-induced chronic colitis in mice	Yu Zhang	Department of Gastroenterology, Peking University People's Hospital	e-Poster
P209	2-Basic Research	Effects of FUT2 loss-of-function mutation on the pathogenesis of inflammatory bowel diseases	Sijing Cheng	Guangdong Institute of Gastroenterology, Guangdong Provincial Key Laboratory of Colorectal and Pelvic Floor Diseases, the Sixth Affiliated Hospital, Sun Yat-sen University	e-Poster
P210	1-Clinical Research	Surgical treatment of Crohn's disease with intestinal stenosis	Yangbo Li	Wuhan University People's Hospital	e-Poster
P211	1-Clinical Research	Charlson Comorbidity Index Predicts Colonic Diverticular Rebleeding	Dong Hyun Kim	Chonnam National University Hospital	e-Poster
P212	1-Clinical Research	Awareness and cognition of illness in patients with inflammatory bowel disease: A multicenter survey in China	Kaichun Wu	Department of Gastroenterology, Xijing Hospital, Fourth Military Medical University,	e-Poster
P213	1-Clinical Research	Perception Gap between Patients with Inflammatory Bowel Disease (IBD) and Healthcare professionals in China: A Cross-sectional Study	Kaichun Wu	Department of Gastroenterology, Xijing Hospital, Fourth Military Medical University,	e-Poster
P214	1-Clinical Research	"Bowel First" is a safe and feasible surgical approach for Crohn's disease patients with complex internal fistulas	Wei Liu	Department of IBD Center, Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P215	1-Clinical Research	Real-world short-term effectiveness of ustekinumab in Crohn's disease: Results from a multi-center prospective study in China	Qian Cao	Department of Gastroenterology, Sir Run Run Shaw Hospital, College of Medicine Zhejiang University,	e-Poster
P216	1-Clinical Research	Colon-related fistula is associated with a worse outcome in Crohn's disease	Wei Liu	Department of IBD Center, Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P217	3-Translational Research (Clinical and Basic)	Crohn's Disease-associated Adherent-Invasive Escherichia coli is Associated with Severe Gut Mucosal Dysbiosis	Zhilu XU	Department of Medicine and Therapeutics, Institute of Digestive Disease, State Key Laboratory of Digestive Diseases, LKS Institute of Health Science, The Chinese University of Hong Kong	e-Poster
P218	1-Clinical Research	Lipoprotein: A New Serum Biomarker of Inflammatory Bowel Disease Activity	Xi Zhao	Division of Gastroenterology, Union Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P219	1-Clinical Research	The application of stapled stricturoplasty in Crohn's disease	Wei Liu	Department of IBD Center, Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P220	1-Clinical Research	Stricturoplasty may gain more preference in the surgical management in Crohn's disease: a case-matched study	Wei Liu	Department of IBD Center, Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P221	2-Basic Research	Inhibition of JAK1 signaling by a novel selective JAK1 inhibitor protects against intestinal mucosal inflammation by inhibiting STAT3 phosphorylation and regulating CD4+ T cells activation	Yanting Shi	Department of Gastroenterology, Xijing Hospital, Fourth Military Medical University,	e-Poster
P222	1-Clinical Research	Corticosteroid-sparing effects of ustekinumab therapy for ulcerative colitis (UC) through 3 years: UNIFI long-term extension	Ellen J. Scherl	Weill Cornell Medicine, New York,	e-Poster
P223	3-Translational Research (Clinical and Basic)	Enhanced immune-modulatory effects of thalidomide and azathioprine co-treatment on human T cell	Tong Li	First affiliated hospital of Sun Yat-sen university	e-Poster
P224	1-Clinical Research	Histological remission better predicts corticosteroid use, hospitalization and treatment escalation over 3 years of follow-up	Tong Li	First affiliated hospital of Sun Yat-sen university	e-Poster
P225	1-Clinical Research	Preoperative endoscopic activity predicts the occurrence of pouchitis after ileal pouch-anal anastomosis in ulcerative colitis: A multicenter retrospective study in China	Weimin Xu	Department of Colorectal Surgery, Xinhua Hospital, Shanghai Jiaotong University School of Medicine, Shanghai 200092, China	e-Poster
P226	4-Case	Implications of an specific ileocecal ulcer	Mi Chen	Gastroenterology Department in The first Affiliated Hospital of Xi'an Jiaotong University	e-Poster
P227	1-Clinical Research	Changes of medical treatment in inflammatory bowel disease: a single center study in 2010-2019 in China	He Zhou	State key Laboratory of Cancer Biology, National Clinical Research Center for Digestive Diseases and Xijing Hospital of Digestive Diseases, Air Force Military Medical University	e-Poster
P228	1-Clinical Research	Serum LRG as a novel biomarker to monitor Crohn's disease activity.	Yoshiaki Takada	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Keio University School of Medicine	e-Poster
P229	2-Basic Research	Vitamin D receptor-dependent protective effect of moderate hypoxia in a mouse colitis model	Zheng Wang	Department of Gastroenterology, PUMC Hospital, CAMS and PUMC,	e-Poster
P230	1-Clinical Research	Simple assessment of colon wall thickening is useful to predict endoscopic disease activity in patients with ulcerative colitis	Natsuki Sumiyoshi	Division of Gastroenterology and Hepatology, Department of Medicine, The Jikei University	e-Poster
P231	1-Clinical Research	Efficacy and safety of Adalimumab in the treatment of Crohn's disease	Tian Pu	Department of Gastroenterology, The First Affiliated Hospital of Zhengzhou University	e-Poster
P232	2-Basic Research	Distinct MiRNAs in the Intestine of Stricturing and Penetrating Crohn Disease Patients	Feilong Guo	Department of General Surgery, Jinling Hospital, School of Medicine, Nanjing University	e-Poster
P233	1-Clinical Research	Prior anti-TNF-alpha exposure is associated with reduced tofacitinib efficacy in patients with ulcerative colitis	Yudai Hasegawa	Division of Gastroenterology and Hepatology, Department of Medicine, The Jikei University	e-Poster
P234	1-Clinical Research	Schaumann Bodies in Crohn's Disease: a pathologic feature may serve as a clue for differential diagnosis.	Xinning Liu	Department of Pathology, The First Affiliated Hospital, Sun Yat-sen University, Guangzhou, China.	e-Poster
P235	1-Clinical Research	Tertiary Lymphoid Organs were correlated with intestinal fibrosis in Crohn's Disease: from a pathologic aspect.	Xinning Liu	Department of Pathology, The First Affiliated Hospital, Sun Yat-sen University, Guangzhou, China.	e-Poster
P236	1-Clinical Research	The Correlation of Gene Polymorphisms and Leukopenia Induced by Azathioprine in Inflammatory Bowel Disease in China	YANYAN WANG	the First Affiliated Hospital of Anhui Medical University	e-Poster
P237	4-Case	Ustekinumab is effective for UC with stenosis: a case report	Ailing Liu	Department of Gastroenterology, the Affiliated Hospital of Qingdao University	e-Poster
P238	1-Clinical Research	Predicting risk factors of steroid dependence after initial steroid therapy in ulcerative colitis	Yusuke Miyatani	Center for Advanced IBD Research and Treatment, Kitasato University Kitasato Institute Hospital	e-Poster
P239	1-Clinical Research	Discrimination between Chronic active Epstein-Barr Virus-associated enteritis and inflammatory bowel disease: a multi-center retrospective study.	Jing Li	West China Hospital of Sichuan University	e-Poster
P240	3-Translational Research (Clinical and Basic)	Changes of intestinal microecology in patients with Crohn's disease treated with infliximab	Yuyang Chen	Department of Gastroenterology, Xin qiao Hospital, Army Medical University	e-Poster
P241	1-Clinical Research	The experiences and support needs of Crohn's patients living with home nutritional support in China: a qualitative interview study	Zehua Zhao	Jinling Hospital, Medical School of Nanjing University	e-Poster
P242	1-Clinical Research	Correlation of serum bile acid profile and inflammatory activity in patients with Crohn's disease	Rui Sun	School of Medicine, Southeast University	e-Poster
P243	2-Basic Research	Leucine-rich repeat C19 depletion alleviates intestinal mucus barrier disruption of offspring exposed to maternal high fat diet	Mengfan Li	Tianjin Medical University General Hospital	e-Poster
P244	2-Basic Research	The role and mechanism of miR-21 regulating PTEN in the occurrence of CD	Zhizhi Wang	The First Affiliated Hospital of Nanchang University	e-Poster
P245	2-Basic Research	Dysregulated circadian rhythm in mice colon: NR1D1 suppression deteriorates DSS-induced colitis via the TNF signaling pathway	Yidong Chen	Division of Gastroenterology, Union Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P246	1-Clinical Research	Comparison of the pharmacokinetics of CT-P13 between Crohn's disease and ulcerative colitis	Eun Soo Kim	Kyungpook National University Hospital	e-Poster
P247	1-Clinical Research	Clinical Evaluation of Vagus Function, Psychological Status and Quality of Life in Patients with Inflammatory Bowel Disease and Analysis of Related Risk Factors	Jingjing Ma	Department of Gastroenterology, the First Affiliated Hospital of Nanjing Medical University	e-Poster
P248	2-Basic Research	Mucosal Profiling of Pediatric-Onset Colitis and IBD Reveals Common Pathogenics and Therapeutic Pathways	Bing Huang	Guangzhou Institute of Pediatrics, Guangzhou Women	e-Poster
P249	1-Clinical Research	Observation on the therapeutic effect of Kujie enema II on ulcerative colitis by regulating antibacterial peptide to inhibit inflammatory reaction	Cheng yile	Nanjing Hospital of Chinese Medicine affiliated to Nanjing University of Chinese Medicine	e-Poster
P250	1-Clinical Research	Predictors of perianal fistula recurrence following perianal surgical intervention in Crohn's disease	Feihong Deng	The Second Xiangya Hospital of Central South University	e-Poster
P251	1-Clinical Research	Predictors of perianal fistula recurrence following perianal surgical intervention in Crohn's disease	Feihong Deng	The Second Xiangya Hospital of Central South University	e-Poster

P252	1-Clinical Research	Efficacy and safety of oral sulfate tablet for the bowel preparation in patients with inflammatory bowel disease: comparison with 2L polyethylene glycol with ascorbic acid	Kyeong Ok Kim	Yeungnam University College of Medicine	e-Poster
P253	1-Clinical Research	The depletion of psoas muscle mass as an indicator of activity in Crohn's disease	Yan Li	Department of Gastroenterology, Zhongnan Hospital of Wuhan University	e-Poster
P254	3-Translational Research (Clinical and Basic)	GAS6 from CD200+ adipose-derived stem cells mitigates colonic inflammation via a macrophage-dependent manner	Xian-rui Wu	The Sixth Affiliated Hospital, Sun Yat-sen University	e-Poster
P255	1-Clinical Research	Differential Diagnosis Between Ileum Crohn's Disease And Cryptogenic Multifocal Ulcerous Stenosing Enteropathy	Tianyu Zhang	Department of Gastroenterology, Shanghai Ruijin Hospital	e-Poster
P256	1-Clinical Research	Clinical response of vedolizumab at week 6 predicted endoscopic remission at week 24 in ulcerative colitis	Daisuke Saito	Department of Gastroenterology and Hepatology, Kyorin University School of Medicine	e-Poster
P257	1-Clinical Research	Characteristics of electrogastrography and electroenterogram in patients with Crohn's disease	Ying Xu	the First Affiliated Hospital of Nanjing Medical University	e-Poster
P258	1-Clinical Research	Effects of psychosocial function in pediatric with inflammation bowel disease during COVID-19 pandemic	Huihui Zhang	Children's Hospital of Chongqing Medical University	e-Poster
P259	2-Basic Research	L6H21 stabilizing gut barrier improves EtOH-LPS-induced hepatic steatosis and injury in mice	Ren Li	The first affiliated hospital of xi'an jiaotong university	e-Poster
P260	2-Basic Research	A Feasible Animal Model for Aspirin-associated Enteropathy	Mingyu Zhang	Department of Gastroenterology, Tongji Hospital, Tongji Medical College, Huazhong University of Science and Technology	e-Poster
P261	3-Translational Research (Clinical and Basic)	Defining Microbe-Metabolite Indicators Associated with Fecal Microbiota Transplantation Efficacy in Inflammatory Bowel Disease	Di Zhao	Department of Colorectal Disease, Shanghai Tenth People's Hospital, Tongji University School of Medicine	e-Poster
P262	3-Translational Research (Clinical and Basic)	Study on the mechanism of MMP7/MMP9 participating in ulcerative colitis with anxiety and depression	Qiongyu Li	Binzhou Medical University Hospital	e-Poster
P263	1-Clinical Research	Value of Fibrinogen as Predictor Markers of Disease Activity in UC Patients	Jiaming Hu	Renmin Hospital of Wuhan University	e-Poster
P264	2-Basic Research	Wumei Decoction Ameliorates Intestinal Mucosal Inflammation by Inhibiting Th1/Th17 Cell Differentiation and Maintaining Microbial Homeostasis	Xiaohan Wu	Center for IBD Research, Department of Gastroenterology, The Shanghai Tenth People's Hospital of Tongji University	e-Poster
P265	2-Basic Research	Identification of pharmacological autophagy regulators of active ulcerative colitis	Peishan Qiu	Zhongnan Hospital of Wuhan University	e-Poster
P266	4-Case	Massive bleeding of a vascular malformation of the small intestine in imaging negative Crohn's disease: a case report	Jiajia Li	Department of Gastroenterology, the Affiliated Hospital of Yangzhou University	e-Poster
P267	2-Basic Research	Antibiotic-Modulated Microbiota Suppresses Colon Inflammation in Mice by Modulating the Intestinal Bile Acids Metabolism	Zhenghao Ye	Department of Gastroenterology, Tongji Hospital, Huazhong University of Science and Technology	e-Poster
P268	1-Clinical Research	Effects of platelet microparticles on intestinal permeability in inflammatory bowel disease	Bin Yang	the First affiliated hospital of Anhui Medical University	e-Poster
P269	4-Case	New-onset tuberculosis in previously T-SPOT.TB-negative patients with Crohn's disease receiving anti-TNF- $\alpha$ therapy in a tuberculosis-endemic region	Yue Yu	Zhejiang University School of Medicine Second Affiliated Hospital	e-Poster
P270	4-Case	A Interleukin-10 receptor (IL10R) deficiency patient in long time clinical remission without Hematopoietic stem cell transplantation	Zhang Xiaoping	Children's Hospital of Soochow University	e-Poster
P271	1-Clinical Research	Semi-elemental versus polymeric exclusive enteral nutrition in the preoperative optimization for patients with Crohn's disease: a randomized controlled trial	Xiaolong Ge	Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P272	1-Clinical Research	Analysis of multidisciplinary treatment mode in type 2 intestinal failure	Xiaolong Ge	Sir Run Run Shaw Hospital, School of Medicine, Zhejiang University	e-Poster
P273	1-Clinical Research	Clinical characteristics of severe ulcerative colitis complicated with cytomegalovirus infection	Sumei Sha	The Second Affiliated Hospital of Xi'an Jiaotong University	e-Poster
P274	4-Case	Treatment of steroid-dependent rectal sparing ulcerative colitis associated with severe autoimmune hemolytic anemia with oral mycophenolate mofetil--a case report and review of literature	Sumei Sha	The Second Affiliated Hospital of Xi'an Jiaotong University	e-Poster
P275	1-Clinical Research	Ustekinumab Intravenous (IV) Optimization in severe Crohn's Disease	haixia ren	Renmin hospital of WuHan university	e-Poster
P276	1-Clinical Research	Urine raman spectroscopy as a novel valuable tool for characterization and noninvasive diagnosis of Crohn's disease	Yaling Wu	Shanghai Tenth People's Hospital, Tongji University School of Medicine	e-Poster
P277	1-Clinical Research	Bowel Ultrasound Enhance the Predicting Value Based on Clinical Indicators: A Scoring System for Moderate to Severe Endoscopic activities in Patients with Ulcerative Colitis	Mengmeng Zhang	Peking Union Medical College Hospital, Chinese Academy of Medical Sciences and Peking Union Medical College	e-Poster
P278	1-Clinical Research	Altered regional homogeneity and topological network in patients with Ulcerative Colitis	Fenrong Chen	Department of Gastroenterology, Second Affiliated Hospital of Xi'an Jiaotong University	e-Poster
P279	1-Clinical Research	Quality of Working Life and Influencing Factors for Patients with Inflammatory Bowel Disease in China: Results from A National Web-Based Survey	Song Xu	Department of Gastroenterology, Second Affiliated Hospital of Zhejiang University School of Medicine	e-Poster
P280	1-Clinical Research	Moderate to severe elderly patients with ulcerative colitis are more likely to have treatment failure and adverse outcome	Mengmeng Zhang	Peking Union Medical College Hospital, Chinese Academy of Medical Sciences and Peking Union Medical College	e-Poster
P281	1-Clinical Research	Application of capsule endoscopy in the diagnosis of Crohn's disease	Chen Lin	Renmin Hospital of Wuhan University	e-Poster
P282	1-Clinical Research	The role of cytomegalovirus colitis on short- and long-term outcomes for patients with ulcerative colitis	Mengmeng Zhang	Peking Union Medical College Hospital, Chinese Academy of Medical Sciences and Peking Union Medical College	e-Poster
P283	2-Basic Research	Tongue coating microbiota as a novel non-invasive biomarker in ulcerative colitis	Lei Zhu	Jiangsu Province Hospital of Traditional Chinese Medicine	e-Poster
P284	1-Clinical Research	Optimization of Preoperative Management in Patients with Penetrating Crohn's Disease: a Pilot Study of "Cocktail" Strategy	Siming Sui	First Affiliated Hospital of Sun YatSen University	e-Poster
P285	1-Clinical Research	The role of mechanosensitive ion channel Piezo1 in inflammatory bowel disease	Qiuyuan Liu	the First affiliated hospital of Anhui Medical University	e-Poster
P286	2-Basic Research	The mechanism of sacral nerve stimulation inhibiting macrophage activation through acetylcholine to improve inflammatory bowel disease	Yan Meng	Division of Gastroenterology and Hepatology, Johns Hopkins University School of Medicine, Baltimore, MD	e-Poster
P287	2-Basic Research	Microbial Metabolite Trimethylamine-N-Oxide Induces Intestinal Carcinogenesis through Inhibiting Farnesoid X Receptor Signaling	Wanru Zhang	Tianjin Medical University General Hospital	e-Poster
P288	1-Clinical Research	The role of Pelvic MRI-Based Score in Assessing the Severity and Follow-up of Patients With Crohn's Perianal Fistulas	Wei Juan	Jinling hospital	e-Poster
P289	1-Clinical Research	Gene expression profiling in ulcerative colitis identifies characteristics for anti-tnf response and targets for alternative therapies	Marietta Iacucci	University of Birmingham	e-Poster
P290	1-Clinical Research	Unchanging Better than Progression: A Long-term Disease Behavior and Surgical Intervention Cohort Analysis in Hospitalized Patients with Crohn's Disease	Xiaoyin Bai	Peking Union Medical College Hospital	e-Poster
P291	1-Clinical Research	Current status of key quality indicators for inflammatory bowel disease in China: A questionnaire survey of tertiary hospitals	Xiaoyin Bai	Peking Union Medical College Hospital	e-Poster
P292	3-Translational Research (Clinical and Basic)	Fibrotic of Colonic Wall in Patients with Ulcerative Colitis underwent a colectomy	Feng Xiaoyue	Department of Gastroenterology and Hepatology of Jinling Hospital	e-Poster
P293	4-Case	inflammatory fibroid polyp in crohn's disease: a rare case of intussusception	Qiong Jiang	Jinling Hospital	e-Poster
P294	1-Clinical Research	Long-term Prognosis of Crohn's Disease Patients with Enterovesical Fistula: Experience from a Tertiary Medical Center	Runfeng Zhang	Department of Gastroenterology, Chinese Academy of Medical Sciences & Peking Union Medical College Hospital	e-Poster
P295	2-Basic Research	Whether intranasal drip of oxytocin ameliorates abnormal stress behavior in mice with colitis	Biying Jin	Department of Gastroenterology, Qilu Hospital, Cheloo College of Medicine	e-Poster
P296	2-Basic Research	THE THERAPEUTIC EFFECT AND RELATED MECHANISM OF LACTIC ACID ON ULCERATIVE COLITIS BY REGULATING PYROPTOSIS	Siyuan Sun	Tianjin Medical University General Hospital	e-Poster

P297	1-Clinical Research	Long-term follow-up in children with Crohns disease after exclusive enteral nutrition induction therapy	youyou luo	Children's hospital, school of medicine	e-Poster
P298	1-Clinical Research	Construction of prognosis model for gastric cancer liver metastasis	Ting Wang	Renmin Hospital of Wuhan University	e-Poster
P299	2-Basic Research	The function and mechanism of long non-coding RNA TNFRSF10A-AS1 in colorectal cancer;	Dandan Wang	The Second Hospital of Hebei Medical University	e-Poster
P300	1-Clinical Research	Association Between Helicobacter Pylori Infection and Ulcerative Colitis: A Meta-Analysis Study	Alesia Mauna	Faculty of Medicine, Universitas Indonesia	e-Poster
P301	1-Clinical Research	Usefulness of colestimide for postoperative refractory diarrhea in patients with Crohn's disease	Aya Hojo	Center for Advanced IBD Research and Treatment, Kitasato University Kitasato Institute Hospital	e-Poster
P302	2-Basic Research	The Effect of TL1A on Th22 Differentiation and IL-22 Expression in Chronic Experimental Colitis Mice	Chenyang Li	The Second Hospital of Hebei Medical University	e-Poster
P303	1-Clinical Research	Temporal changes in treatment paradigm and long-term prognosis of Crohn's disease: a population-based cohort study in China	Lingya Yao	Sir Run Run Shaw Hospital, College of Medicine Zhejiang University	e-Poster
P304	2-Basic Research	Melatonin Mitigates Oxazolone-induce Colitis in Microbiota-dependent Manner	Zixiao Zhao	Qilu hospital of Shandong university	e-Poster
P305	3-Translational Research (Clinical and Basic)	Discrimination between colorectal tumors, ulcerative colitis and normal controls with mucosal gut microbiota by machine learning in metagenome dataset	Namjoo Kim	Department of Gastroenterology, Korea University Guro Hospital,	e-Poster
P306	1-Clinical Research	The efficacy and safety of anti-TNF agents in the treatment of Intestinal Behcet's disease, a systematic review and meta-analysis	Mengyuan Zhang	Department of Gastroenterology, Peking Union Medical College Hospital	e-Poster
P307	2-Basic Research	Triptolide alleviates experimental colitis in mice by inhibiting the polarization of M1 macrophages and regulating NLRP3 inflammasome and Nrf2/HO-1 signaling pathway	Huining Fan	Shanghai Jiao Tong University Affiliated Sixth People's Hospital	e-Poster
P308	2-Basic Research	The expression of IL-26 in inflammatory bowel disease and its regulatory effect on macrophage	Dongjuan Song	Division of Gastroenterology and Hepatology, Key Laboratory of Gastroenterology and Hepatology, Ministry of Health, Inflammatory Bowel Disease Research Center, Renji Hospital, School of Medicine, Shanghai Jiao Tong University, Shanghai Institute of Digestive Disease	e-Poster
P309	1-Clinical Research	Exclusive Enteral Nutrition resolves ileocolonic inflammation in adults with Crohn's disease through regulating neutrophils and monocytes immune response	Na Diao	Sun Yat-sen University	e-Poster
P310	2-Basic Research	Hypermethylation of miR-145 promoter-mediated SOX9-CLDN8 pathway regulates intestinal mucosal barrier in Crohn's Disease	Xiaojun Zhuang	Department of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University	e-Poster
P311	1-Clinical Research	The Impact of Co-existing Depression and Anxiety on Outcomes in Inflammatory Bowel Diseases : A Nationwide Population-Based Study	Seulji Kim	Seoul National University College of Medicine	e-Poster
P312	1-Clinical Research	Stringent screening strategy leads to significant risk reduction of tuberculosis in patients with inflammatory bowel disease receiving anti-TNF therapy: A real world cohort analysis from a TB endemic region	Peeyush Kumar	All India institute of medical sciences	e-Poster
P313	1-Clinical Research	Clinical study on the expression of FUT2 and FUT3 in the intestinal mucosa of patients with inflammatory bowel disease	Xin Chen	Affiliated Hospital of Hangzhou Normal University	e-Poster
P314	1-Clinical Research	A shortened diagnostic interval and its associated clinical factors and related outcomes in inflammatory bowel disease patients from a cohort study in China	Runing Zhou	Department of Gastroenterology, Peking Union Medical College Hospital, Chinese Academy Medical Sciences and Peking Union Medical College	e-Poster
P315	2-Basic Research	Caspase-1/11 deletion aggravates experimental intestinal fibrosis by ameliorating pyroptosis	Runing Zhou	Department of General Surgery, Peking Union Medical College Hospital, Chinese Academy Medical Sciences and Peking Union Medical College	e-Poster
P316	1-Clinical Research	Prevalence and Predictors of Non-alcoholic Liver Disease on MRI among Patients with Crohn's Disease: A Retrospective Cohort Study	Qijin Hong	Shanghai Renji Hospital	e-Poster
P317	1-Clinical Research	Development and validation of two new score models for disease activity evaluation of patients with Crohn's Disease based on bowel ultrasound and other biomarkers	Qingyang Zhou	Peking Union Medical College Hospital, Peking Union Medical College and Chinese Academy of Medical Sciences	e-Poster
P318	1-Clinical Research	The revision of donor screening of fecal microbiota transplantation for treatment of patients with ulcerative colitis	Xiaochen Zhang	Department of Gastroenterology, Juntendo University School of Medicine	e-Poster
P319	1-Clinical Research	Small Intestinal Bacterial Overgrowth, A Predictor of Clinical Relapse in Patients with quiescent Crohn's Disease	Jing Feng	Department of Gastroenterology and Hepatology, Jinling Hospital, the First School of Clinical Medicine, Southern Medical University	e-Poster
P320	2-Basic Research	Expression of Cx43 in patients with ulcerative colitis	Weidong Liu	People's Hospital of Xinjiang Uygur Autonomous Region	e-Poster
P321	1-Clinical Research	Analysis of nutritional status and risk factors of patients with Crohn's disease	Huiling Liao	Wuhan University	e-Poster
P322	1-Clinical Research	Risk factors for and impact of delayed infliximab treatment among patients with Crohn's disease during the COVID-19 epidemic in China: a propensity score-matched analysis	Yong Li	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P323	1-Clinical Research	Dose the GLIM criteria represent more appropriate for nutritional assessment in patients with Crohn's disease?	Yong Li	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P324	1-Clinical Research	Proper diets might reduce the risk of inflammatory bowel disease: a propensity matching analysis of multicenter study in China	Xuanfu Chen	Peking Union Medical College Hospital, Peking Union Medical College, Chinese Academy of Medical Sciences	e-Poster
P325	1-Clinical Research	Bioelectrical impedance phase angle: a non-invasive index to monitor the disease activity of male patients with Crohn's disease	Ziheng Peng	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P326	3-Translational Research (Clinical and Basic)	Activation of platelet NLRP3 inflammasomes in Crohn's disease	Si Zhang	Fudan University	e-Poster
P327	1-Clinical Research	Edema index as a more sensitive indicator of nutritional status with Crohn's disease	Duo Xu	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P328	2-Basic Research	Regulatory T cell-derived exosomes regulate the repair of intestinal epithelial barrier damage in inflammatory bowel disease by transmitting miR-195A-3p	Fei Liao	WuHan University	e-Poster
P329	2-Basic Research	Corticotropin releasing hormone promotes inflammatory bowel disease via inducing intestinal macrophage autophagy	Jiayi Wu	The first affiliated hospital of Navy Military University	e-Poster
P330	2-Basic Research	Dietary Xylo-oligosaccharide Ameliorates Colonic Mucus Microbiota Penetration with Restored Autophagy in Interleukin-10-gene-deficient Mice	Jing Sun	Departments of Gastroenterology, Wuxi People's Hospital Affiliated to Nanjing Medical University	e-Poster
P331	1-Clinical Research	Relationship between endoscopic scores and histological scores in ulcerative colitis.	Xuyang Dong	The First Affiliated Hospital of Zhengzhou University	e-Poster
P332	1-Clinical Research	IHAP (combination of interleukin-6, hemoglobin, albumin and platelet count) score can accurately assess intestinal inflammation of Crohn's disease	changqin liu	gastroenterology department, shanghai tenth people's hospital of tongji university	e-Poster
P333	1-Clinical Research	The efficacy and safety of cyclophosphamide for intestinal Behcet's disease	Tingting Liu	Department of Gastroenterology, Peking Union Medical College Hospital, Chinese Academy of Medical Science & Peking Union Medical College, Beijing, China.	e-Poster
P334	3-Translational Research (Clinical and Basic)	The role of ion transporter in the pathogenesis of IBD	Fang Xiao	Department of Gastroenterology, Tongji Hospital of Tongji Medical College, Huazhong University of Science and Technology, Wuhan 430030, Hubei Province, China.	e-Poster
P335	1-Clinical Research	The rural incidence and prevalence of ulcerative colitis in China	Tingting Liu	Department of Gastroenterology, Peking Union Medical College Hospital, Chinese Academy of Medical Science & Peking Union Medical College, Beijing, China.	e-Poster
P336	1-Clinical Research	The real-world outcomes of vedolizumab induction treatment in patients with active Ulcerative Colitis in China: a multicenter retrospective study	Jian Tang	the Department of Gastroenterology, the Sixth Affiliated Hospital, Sun Yat-sen University	e-Poster
P337	3-Translational Research (Clinical and Basic)	The Urbanization-induced Intestinal Flora Imbalance May Participate in the Pathogenesis of Crohn's Disease	Xiaozhi Li	Department of Gastroenterology, The First Affiliated Hospital of Sun Yat-sen University, 58 Zhongshan II Road, Guangzhou	e-Poster
P338	1-Clinical Research	A Low FODMAP Diet can reduce gastrointestinal symptoms in patients with inflammatory bowel disease: A Systematic Review and Meta-analysis	Ziheng Peng	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P339	1-Clinical Research	Establishment of a prediction model for reoperation risk of Crohn's disease and the impact of postoperative drug medications on reoperation rate	Mingyue Guo	Peking Union Medical College Hospital	e-Poster

P340	1-Clinical Research	Effect of ulceration on the efficacy and safety of endoscopic balloon dilatation in the treatment of Crohn's disease strictures	Jiachen Sun	The Sixth Affiliated of Sun Yat-sen University	e-Poster
P341	1-Clinical Research	The intestinal parasitic infections in patients with inflammatory bowel disease	Silan Shen	Department of Gastroenterology, West China Hospital, Sichuan University	e-Poster
P342	2-Basic Research	Notopterin suppress the inflammatory responses in C57BL/6 mice with DSS-induced ulcerative colitis	Daoping Si	Zhenjiang first people's hospital	e-Poster
P343	1-Clinical Research	Prevalence and clinical features of sarcopenia in Korean patients with inflammatory bowel disease	Kwangwoo Nam	Department of Gastroenterology, Dankook University Hospital, Dankook University College of Medicine	e-Poster
P344	1-Clinical Research	Ecological and Network Analyses for the Fecal Microbiome in Ulcerative Colitis (UC)	Yang Sun	The First Affiliated Hospital of Kunming Medical U	e-Poster
P345	1-Clinical Research	Diagnostic value of inflammatory indices in patients with ulcerative colitis and moderate-to-severe ulcerative colitis	Song Wang	Department of Gastroenterology, The First Affiliated Hospital of USTC, Division of Life Sciences and Medicine, University of Science and Technology of China	e-Poster
P346	3-Translational Research (Clinical and Basic)	Spicy food is the top one diet risk factor for the relapse and exacerbation of Inflammatory bowel disease	Kexin Chen	Department of Gastroenterology, West China Hospital, Sichuan University, Chengdu, China.	e-Poster
P347	3-Translational Research (Clinical and Basic)	Regulating effect of mitochondrial ribosomal protein S18B on inflammatory bowel disease by respiratory chain	Lili Li	Department of Gastroenterology, West China Hospital, Sichuan University,	e-Poster
P348	1-Clinical Research	Efficacy and safety of endoscopic stricturotomy or balloon dilatation combined with local injection of betamethasone in Crohn's disease strictures	Junrong Chen	The Sixth Affiliated of Sun Yat-sen University	e-Poster
P349	3-Translational Research (Clinical and Basic)	The role of Akkermansia muciniphila in protecting against Dextran Sulfate Sodium induced colitis	Mingshan Jiang	West China Hospital	e-Poster
P350	1-Clinical Research	Impact of Crohn's disease on working life: Discovering the truth in Chinese patients	Yu Peng	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P351	3-Translational Research (Clinical and Basic)	Epstein-Barr Virus Contributing to the Differential Diagnosis of Primary Intestinal Epstein-Barr Virus-associated Lymphoproliferative Disorders and Crohn's Disease	Chunxiang Ma	Department of Gastroenterology, West China Hospital, Sichuan University	e-Poster
P352	1-Clinical Research	Vitamin D level is associated with clinical outcomes in Chinese patients with Crohn's disease	Xiaomei Song	Department of Gastroenterology, Chongqing General Hospital, University of Chinese Academy of Sciences	e-Poster
P353	1-Clinical Research	Azathiopurine-induced Leukopenia and Evaluation of Therapeutic Effects of Diyushengbai Tablet in Patients with Crohn's Disease	Zhen Zeng	Department of Gastroenterology, West China Hospital, Sichuan University	e-Poster
P354	1-Clinical Research	Age at onset, maintenance therapy and erythrocyte sedimentation rate are independent risk factors for anal fistula in Crohn's disease	Yu Peng	Department of Gastroenterology, Xiangya Hospital, Central South University	e-Poster
P355	2-Basic Research	IL10 Protects Intestinal Stem Cells Against the Damage Induced by Tumor Necrosis Factor-Alpha	Huan He	South China University of Technology, School of Medicine	e-Poster
P356	2-Basic Research	Effect of Shenling Baizhu San on lipid metabolism and intestinal barrier of UC with Pi (Spleen) deficiency	Ziyu Lian	Jiangsu Province Hospital of Traditional Chinese Medicine	e-Poster
P357	1-Clinical Research	Comparison between the effect of two- and three stage total proctocolectomy plus ileal pouch anal anastomosis on clinical outcome of ulcerative colitis	Yu Zeqian	Nanjing University	e-Poster
P358	2-Basic Research	The role of Protease-activated receptor-1 on chronic colitis-associated intestinal fibrosis	Jia Song	The Second Hospital of Hebei Medical University	e-Poster
P359	2-Basic Research	Relationship between mitochondrial DNA copy number and ulcerative colitis	Lu Jiajie	People's Hospital of Xinjiang Uygur Autonomous Region	e-Poster
P360	1-Clinical Research	Early predictors of long-term maintenance and remission of glucocorticoid resistance to moderate and severe ulcerative colitis treated with Yuchang Zhixie decoction combined with infliximab	Zhiguo Guo	Suzhou Hospital of Anhui Medical University,	e-Poster
P361	3-Translational Research (Clinical and Basic)	Analysis of Colonic Mucosal Hepcidin Expression in Patients with Ulcerative Colitis by Gender.	Wang Yang	Hebei Medical University	e-Poster
P362	1-Clinical Research	Acupuncture for sleep disorders improves ulcerative colitis by downregulating HIF expression	wang jing	Department of Gastroenterology and Hepatology, Tianjin Medical University General Hospital	e-Poster
P363	2-Basic Research	Construction of co-expression modules related to sumoylation in DSS-induced colitis utilizing WGCNA	Xuanfu Chen	Peking Union Medical College Hospital, Peking Union Medical College, Chinese Academy of Medical Sciences	e-Poster
P364	1-Clinical Research	Risk for malignancies and chemopreventive effect of statin, metformin and aspirin in Korean patients with ulcerative colitis: A nationwide population-based study	Eun Oh	Eulji General Hospital, Eulji University School of Medicine	e-Poster
P365	1-Clinical Research	Risk for colorectal cancer and chemopreventive effect of statin, metformin and aspirin in Korean patients with ulcerative colitis: A nationwide population-based study	Eun Hye Oh	Eulji General Hospital, Eulji University School of Medicine	e-Poster
P366	1-Clinical Research	Risks for colorectal cancer and biliary cancer according to accompanied primary sclerosing cholangitis in Korean patients with ulcerative colitis: A nationwide population-based study	Eun Hye Oh	Eulji General Hospital, Eulji University School of Medicine	e-Poster
P367	2-Basic Research	Study on the characteristics of gut microbiota in the early stage of Crohn's disease	Xianzong Ma	Department of Gastroenterology, Seventh Medical Center of Chinese PLA General Hospital,	e-Poster
P368	1-Clinical Research	Construction of Symptom Assessment Scale in Individuals with inflammatory bowel disease	lv hongli	General Hospital of the Eastern Theater Command	e-Poster
P369	1-Clinical Research	Differentiation model between intestinal tuberculosis and Crohn's disease using SVM	Yu Li	Zhongshan Hospital affiliated to Fudan University	e-Poster
P370	2-Basic Research	The new HDAC1 inhibitor CBUD-1001 Enhances TRAIL-induced Apoptosis in Colorectal Cancer Cells	Min Woo Shin	Department of Internal Medicine, Jeonbuk National University Medical School	e-Poster
P371	2-Basic Research	Metformin alleviates inflammation through suppressing FASN-dependent palmitoylation of Akt.	Wenfang Xiong	Nanjing Drum Tower Hospital, The Affiliated Hospital of Nanjing University Medical School	e-Poster
P372	1-Clinical Research	Bidirectional association between alopecia areata and celiac disease: a meta-analysis	Won Ji Song	Department of Dermatology, Seoul National University Hospital	e-Poster
P373	1-Clinical Research	Comparison of Clinical Outcome as Relapse Before and After Introduction of Biological Agents in Pediatric Ulcerative Colitis	Yiyoung Kwon	Samsung medical center	e-Poster
P374	2-Basic Research	Shikonin Contributes to Intestinal Epithelial Cell Differentiation through PKM2/NRF2-mediated Polyol Pathway	Ling Huang	Department of Gastroenterology, Guangzhou Women and Children's Medical Center	e-Poster
P375	3-Translational Research (Clinical and Basic)	Fibroblasts inhibit mucosal barrier function by secreting WNT2B to activate the WNT/ $\beta$ -catenin signaling pathway in intestinal epithelial cells	Xiao Shuzhe	Guangzhou Women and Children's Medical Center	e-Poster
P376	1-Clinical Research	An effective method to identify clean resection margin and to help reduce postoperative endoscopic recurrence in ileocolic Crohn's disease	Jiaxin Zou	Guangdong Institute of Gastroenterology, Guangdong Provincial Key Laboratory of Colorectal and Pelvic Floor Diseases, The Sixth Affiliated Hospital, Sun Yat-sen University, 26 Yuancun Erheng Rd,	e-Poster
P377	1-Clinical Research	Disease course and clinical outcomes in Taiwan Crohn's Disease patients with perianal fistula: a nationwide-based study	Meng-Tzu Weng	Departments of Internal Medicine, National Taiwan University Hospital	e-Poster
P378	1-Clinical Research	Correlation between Magnetic Resonance Enterography and ileo-colonoscopy for assessment of disease activity in terminal ileal Crohn's disease	Chandan Kakkar	Dayanand Medical College and Hospital, Ludhiana, India	e-Poster
P379	1-Clinical Research	Direct Healthcare Cost Utilization in the First year of Inflammatory Bowel Disease Diagnosis: A binational study	Hee Seung Hong	Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine	e-Poster
P380	1-Clinical Research	Endoscopic and pathologic findings of the upper gastrointestinal tract involvement of Crohn's disease in Korea: a prospective cohort study	Ga Hee Kim	Department of Gastroenterology, Asan medical center, University of Ulsan College of Medicine	e-Poster
P381	1-Clinical Research	Inflammatory bowel disease (IBD) treatment	Muhammad Zulqarnain	Zhejiang Chinese Medical University	e-Poster
P382	1-Clinical Research	The Clinical Outcomes of Very Early-Onset Inflammatory Bowel Disease in Taiwan	Jia-Feng Wu	National Taiwan University Hospital	e-Poster
P383	2-Basic Research	Clostridium butyricum regulates T-helper 17 cells-related immune response in dextran sodium sulfate-induced colitis mice by targeting Toll-like receptor 2	Ying Xie	Shengjing Hospital of China Medical University	e-Poster

P384	1-Clinical Research	Early Fecal Microbiome Transfer after donor defecation predicts response in patients with active ulcerative colitis	Arshdeep Singh	Dayanand Medical College and Hospital, Ludhiana, India	e-Poster
P385	4-Case	Clinical course of COVID-19 in patients with inflammatory bowel disease in Korea: A KASID multicenter study	Jin Wook Lee	Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine	e-Poster
P386	1-Clinical Research	Inflammatory Bowel Disease: Three Decadal Status and Trends from Global Burden of Disease Study 2019	Khushdeep Dharni	Dayanand Medical College and Hospital, Ludhiana, India	e-Poster
P387	1-Clinical Research	Additive effect of probiotics (Mutaflor®) on 5-aminosalicylic acid therapy in patients with ulcerative colitis	Soo-Kyung Park	Kangbuk Samsung Hospital, Sungkyunkwan University School of Medicine	e-Poster
P388	1-Clinical Research	Continuous intravenous cyclosporine therapy improves short term prognosis in patients with severe ulcerative colitis refractory to multiple molecular target therapies.	Yuta Matsubara	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Keio University School of Medicine	e-Poster
P389	1-Clinical Research	Reversion of gut microbiota during the recovery phase in patients with asymptomatic or mild COVID-19: longitudinal study	Han-Na Kim	Kangbuk Samsung Hospital, Sungkyunkwan University School of Medicine	e-Poster
P390	2-Basic Research	Metformin Affects Gut Microbiota Composition and Diversity Associated with Amelioration of Dextran Sulfate Sodium-Induced Colitis in Mice	Xin Li	First Affiliated Hospital of Nanchang University	e-Poster
P391	2-Basic Research	Machine Learning-based Classification for Diagnosis of Colorectal Cancer Stage Using Recurrent Neural Network Model Algorithm	Rifaldy Fajar	Computational Biology Laboratory, Yogyakarta State University, Indonesia	e-Poster
P392	1-Clinical Research	Effect of smoking on the development and outcomes of inflammatory bowel disease in Asians	Chien-Chih Tung	National Taiwan University Hospital	e-Poster
P393	1-Clinical Research	Significance of anemia in Asian patients with inflammatory bowel disease	Po-Yen Hsiao	Department of Internal Medicine, National Taiwan University Hospital, Taipei, Taiwan	e-Poster
P394	1-Clinical Research	Evaluation of Nutritional Status in Patients with Inflammatory Bowel Disease in India	Arshdeep Singh	Dayanand Medical College and Hospital, Ludhiana, India	e-Poster
P395	2-Basic Research	The p21-activated kinase 4 plays critical role in regulating cell survival, EMT, angiogenesis and cancer stemness in colorectal cancer microenvironment.	Se Lim Kim	Department of Internal Medicine, Jeonbuk National University Medical School	e-Poster
P396	1-Clinical Research	The risk of tuberculosis in patients with inflammatory bowel disease treated with vedolizumab or ustekinumab in South Korea	Myeong Geun Choi	Division of Pulmonary and Critical Care Medicine, Department of Internal Medicine, Asan Medical Center, University of Ulsan College of Medicine	e-Poster
P397	1-Clinical Research	Serum Leucine-rich alpha 2 glycoprotein as a novel surrogate marker of endoscopic activity in patients with Crohn's disease.	Ryoya Sakakibara	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Keio University School of Medicine	e-Poster
P398	1-Clinical Research	Long-term Safety and Efficacy of Fecal Microbiota Transplantation in inflammatory bowel disease: Up to 5-year Data from Hong Kong	Yuk Kam Yau	Center for Gut Microbiota Research, Faculty of Medicine, The Chinese University of Hong Kong	e-Poster
P399	1-Clinical Research	The Impacts of COVID-19 Pandemic on Patient Perceptions and Inflammatory Bowel Disease Care: A Multicenter Study in Taiwan	Chen-Shuan Chung	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Far Eastern Memorial Hospital	e-Poster
P400	1-Clinical Research	Risk of cervical cancer in incident Ulcerative colitis during the first 10 years after diagnosis: a nationwide population-based study	Ha Lim Jo	Department of Internal Medicine, Yonsei University Wonju College of Medicine	e-Poster
P401	2-Basic Research	Effect and mechanism of ZIP7 on the regulation of endoplasmic reticulum stress in intestinal epithelial tight junction protein ZO-1	Zhongxia Chen	The Affiliated Wuxi People's Hospital of Nanjing Medical University	e-Poster
P402	3-Translational Research (Clinical and Basic)	Lactococcus formosensis inhibits intestinal smooth muscle movement through Transgelin in functional constipation	Simin Zhou	Tianjin Medical University General Hospital	e-Poster
P403	1-Clinical Research	Development of Global Inflammatory Bowel Disease Visualisation of Epidemiology Study in the 21st Century (GIVES-21) to define disease burden and dietary risk factors in newly industrialised regions	Joyce Wing Yan Mak	The Chinese University of Hong Kong	e-Poster
P404	2-Basic Research	Identification of fibroblast heterogeneity in the murine colon	Yuya Hagihara	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Keio University School of Medicine	e-Poster
P405	3-Translational Research (Clinical and Basic)	Development of Machine Learning Models to Predict Early Disease Progression in Crohn's disease: Results from the IMPACT Study	Jaeyoung Chun	Department of Internal Medicine, Gangnam Severance Hospital, Yonsei University College of Medicine	e-Poster
P406	2-Basic Research	IL-1R-mediated mechanisms of IL-10 production by gut macrophages	Noritaka Hibi	Center for Advanced IBD Research and Treatment, Kitasato University Kitasato Institute Hospital	e-Poster
P407	1-Clinical Research	Depression in Patients with Inflammatory Bowel Disease is associated with increased risk of Dementia and Parkinson's disease: A Nationwide, Population-Based Study	Kookhwan Choi	Department of Internal Medicine and Liver Research Institute, Seoul National University College of Medicine	e-Poster
P408	4-Case	Jaundice in a primary sclerosing cholangitis patient...a new cause in a new era	Nik Arsyad Nik Muhamad Affendi	University of Malaya Medical Centre	e-Poster
P409	1-Clinical Research	Real world experience on the efficacy and safety of Ustekinumab in Crohn's disease in an Asian population: A preliminary report	Nik Arsyad Nik Muhamad Affendi	University Malaya Medical Centre	e-Poster
P410	2-Basic Research	A novel role of PCDH20 in the maintenance of intestinal homeostasis in Crohn's disease	Shanshan Huang	Department of Gastroenterology, The First Affiliated Hospital, Sun Yat-sen University	e-Poster
P411	1-Clinical Research	The persistence of oral 5-aminosalicylic acid monotherapy in ulcerative colitis: a real-world study	Chen-Wang Chang	Division of Gastroenterology, Department of Internal Medicine, Mackay Memorial Hospital	e-Poster
P412	1-Clinical Research	Risk of colorectal cancer of incident Crohn's disease during the first 10 years after diagnosis: A nationwide population-based study	Hee Man Kim	Department of Internal Medicine, Yonsei University Wonju College of Medicine	e-Poster
P413	1-Clinical Research	The Link of Appendiceal Mucocele and Inflammatory Bowel Disease: a Comprehensive Systemic Review	Chen-Wang Chang	Division of Gastroenterology, Department of Internal Medicine, Mackay Memorial Hospital	e-Poster
P414	1-Clinical Research	Fecal Microbial Transplantation in Inflammatory Bowel Disease Patients with Refractory or Recurrent Clostridioides Difficile Infection	Puo-Hsien Le	Chang Gung Microbiota Therapy Center, Chang Gung Memorial Hospital	e-Poster
P415	4-Case	Vedolizumab-related agranulocytosis with Epstein-Barr virus esophagitis: A case report	Puo-Hsien Le	Department of Gastroenterology and Hepatology, Chang Gung Memorial Hospital, Linkou Branch	e-Poster
P416	4-Case	Typical esophageal ulcer may help the diagnosis of intestinal Behçet's disease	Chen Xie	Department of Gastroenterology, The First Affiliated Hospital of Soochow University	e-Poster
P417	1-Clinical Research	Impact of timing of immunomodulator use on first intestinal resection in Crohn's Disease with poor prognostic factors : a nationwide population-based cohort study 2004-2015 ;	Jae Jun Park	Department of Internal Medicine, Severance Hospital, Yonsei University College of Medicine	e-Poster
P418	1-Clinical Research	Establishing correlation between faecal microbial taxa and different phases of disease in a north Indian ulcerative colitis cohort	Garima Juyal	chool of Biotechnology, Jawaharlal Nehru University, New Delhi, India	e-Poster
P419	3-Translational Research (Clinical and Basic)	Gut microbial and metabolomic profiles of patients with ulcerative colitis in response to FMT	Manasvini Markandey	All India Institute of Medical Sciences	e-Poster
P420	3-Translational Research (Clinical and Basic)	Clostridium butyricum-derived Extracellular Vesicles Fuel Regulatory Macrophages Reprogramming and Remodel the Gut microbiota to Prevent Ulcerative Colitis	Liping Liang	shenzhen hospial,southern medical university	e-Poster
P421	1-Clinical Research	Rebleeding risk factors following endoscopic therapy of small-bowel lesions with device-assisted enteroscopy	Yuna Kim	Department of Internal Medicine and Institute of Gastroenterology, Yonsei University College of Medicine	e-Poster
P422	1-Clinical Research	Clinical characteristics of newly diagnosed adult patients with Crohn's disease in Japan: Interim analysis of ICREST-CD	Katsuyoshi Matsuoka	Division of Gastroenterology and Hepatology, Department of Internal Medicine, Toho University Sakura Medical Center, Sakura, Chiba, Japan;	e-Poster
